REPLACEMENT PARTS FOR
WILLIAMS

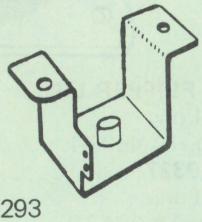
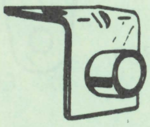
FOR YOUR LOCK PROBLEMS
SEE*PAGES 12-20

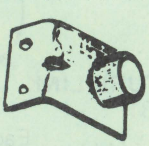
Listed here are commonly used parts. To order parts not shown: specify name and model of machine, describe part and manufacturer reference number, and specify part position on machine.



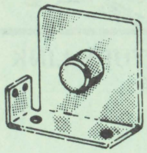
COIL STOP
With Case
Ref. No. A-6293
L/6 L/12 L/25
No. 04-0450. Each



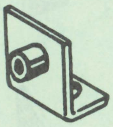
DRUM UNIT COIL STOP
Ref. No. A-4932.
No. 04-0190. . . . . Each



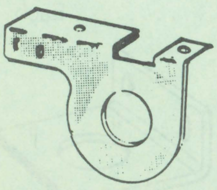
STEPUP UNIT COIL STOP
Ref. No. A-4708.
No. 02-3161. . . . . Each



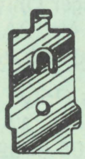
COIL STOP
For New Drum Unit.
Ref. No. A-7255.
No. 04-0503. . . . . Each



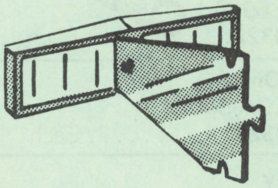
COIL STOP
For New Step-Up Unit.
Ref. No. A-6492.
L/6 L/12 L/25
No. 04-0387. Each



MOUNTING BRACKET
(For Coil & Plunger on New Drum Unit)
Ref. No. 1B-5155.
No. 04-0505. . . . . Each

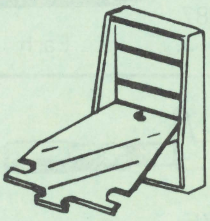


ARMATURE PLATE
(Relay Bank — New Style)
Ref. No. A-6445.
L/6 L/12 L/25
No. 02-3175. Each

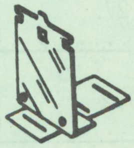


"L" Type Relay
ARMATURE PLATE

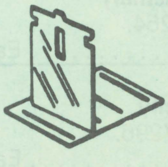
Slots	Ref. No.	No.	Each
3	A-6214-3	**04-0454**	
4	A-6214-4	**04-0444**	
5	A-6214-5	**04-0445**	
6	A-6214-6	**04-0446**	



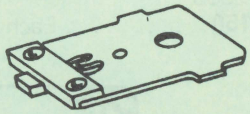
New Style Nylon
"J" Relay 4-Slot
ARMATURE PLATE
Ref. No. B-6067
No. 04-0397. . . . . Each



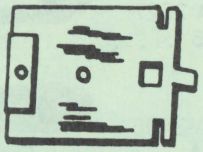
ARMATURE PLATE
With 3/4" Wide Slotted Fiber
(5 Slot)
No. 02-3178. . . . . Each



ARMATURE PLATE
With 1" Wide Four-Slot Fiber
Ref. No. B5248
No. 02-3253. . . . . Each

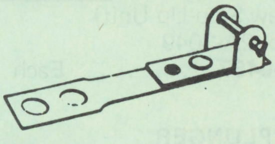


RELAY BANK ARMATURE PLATE
With Nylon Latch
Ref. No. A-7282.
No. 04-0344. . . . . Each

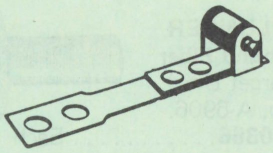


ARMATURE FLAP PIN RELAYS
Ref. No. ST-25-20
No. 02-3171. . . . . Each

CAM FOLLOWER BLADES

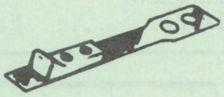


With Rollers
Ref. No. A-4608
No. 04-0177. . . . . Each

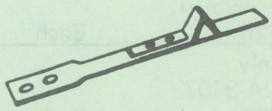


Small Roller
Ref. No. A-4608A.
No. 04-0191. . . . . Each

Large Roller
Ref No. A-4608B.
No. 04-0210. . . . . Each



Ref. No. A-6367.
No. 04-0287. . . . . Each

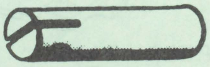


MOTOR CAM FOLLOWER BLADE
V-Type, 2-1/2" long.
No. 02-3190. . . . . Each

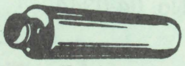
STEPUP PLUNGERS

Ref. No. 2A-2767.
No. 04-0158........... Each

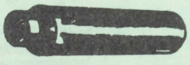
Ref. No. 2353
No. 04-0150........... Each



Ref. No. 2A-2364
No. 04-0152........... Each

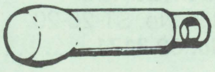


Ref. No. 2A-2527
No. 04-0305........... Each



Ref. No. 2A-3406
No. 04-0324........... Each

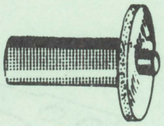
PLUNGER
(Reel Unit)
Ref. No. 2353.
No. 04-0150........... Each



DRIVE PLUNGER
(For New Step-Up Unit)
Ref. No. 2A-3049
No. 04-0487........... Each

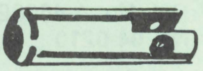
RESET PLUNGER
(For New Step-Up Unit)
Ref. No. 2A-3050.
No. 04-0491........... Each

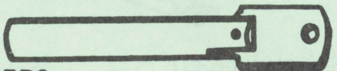
COIL PLUNGER
With Round Fiber
(For Target Unit)
Ref. No. A-6906.
No. 04-0366........... Each



RESET PLUNGER
Ref. No. 2A-3014.
No. 04-0434........... Each

BAT-COIL PLUNGER
Ref. No. 2A-2587
No. 04-0122........... Each

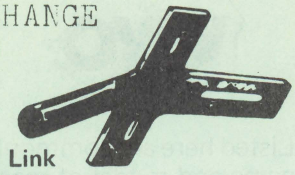




PLUNGERS
With Fiber Link
Plunger and Link
Ref. No. A-6939-1.
No. 04-0325........... Each

Plunger Only
Ref. No. 2A-3407.
No. 04-0326........... Each

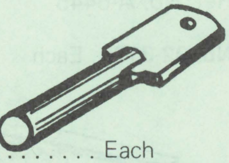
Link Only
Ref. No. 1A-4603-1.
No. 04-0327........... Each



Plunger and Link
Ref. No. A-6985.
No. 04-0500........... Each

Plunger Only
Ref. No. 2A-3407.
No. 04-0326........... Each

Link Only
Ref. No. 1A-4660.
No. 04-0499........... Each



Plunger and Link
Ref. No. 6986-1.
No. 04-0322........... Each

Plunger Only
Ref. No. 2A-3407.
No. 04-0326........... Each

Link Only
Ref. No. 1A-4661-1
No. 04-0323........... Each

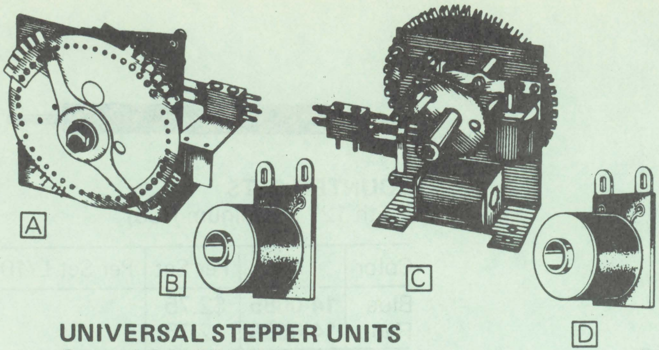
STEPPER UNITS AND RELAYS



UNIVERSAL STEPPER UNITS

General Specifications:

These are rugged, fast actuating units designed for long, service-free operation. All parts are precision finished – hardened and plated where necessary. A varied combination of switches and disc contact fingers is available, to your specifications. Operational speed not exceeding 5 steps per second is permissible. Will operate in any position. Semi-continuous duty with a positive latch reset. Four mounting holes for #8 screws. Normally furnished with 2 wiper fingers.

Choice of 3 different voltages for each type.

A UNIVERSAL 50-POINT SMALL "B" STEPPER UNITS

50-step ratchet with 44 maximum steps. Furnished with round disc. Can be furnished with a break switch at zero position. Size: 3" Deep, 4-1/8" High, 4-5/8" Wide.

When ordering, give full details.

Voltage	No.	Each	L/12
24-30	**23-6201**		
48-50	**23-6202**		
110-120	**23-6203**		

B COILS ONLY FOR SMALL "B" STEPPER UNITS

Voltage	Type	No.	Each
24V	Step-Up	**23-6223**

E HEAVY DUTY, STEP-DOWN TRANSFORMER

115-Volt, 60 Cycle. Designed for long, service-free operation.

Step-Down Voltage Tap-Offs	No.	Each
6-8, 24-30	**22-1034**	
6-8, 18, 48	**22-1035**	

OPEN STYLE GENERAL PURPOSE CONTINUOUS DUTY RELAYS

Designed for rugged service on coin-operated equipment, pneumatic devices, etc. Specify AC or DC relays. We list below two mounting types, each available in 24V, 48V or 110V. Five different contact "pile-ups" are listed according to number of "makes" and "breaks" (M) and (B). Write for quotation on other contact "pile-ups" available and for price on quantities more than 25 relays of one type.

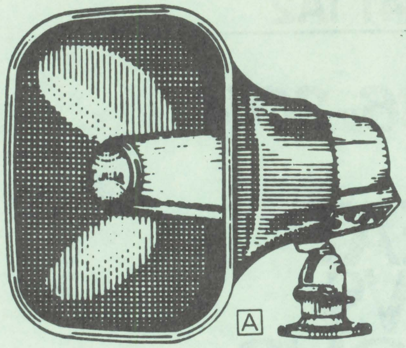
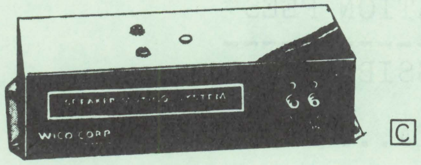
OUTDOOR SPEAKERS

HAUT-PARLEUR
POUR
EXTERIEUR



A



C

Rugged, dependable outdoor speakers for powerful, true quality sound in high and low ranges outdoors.

A THE BRIGHTON

A true 15-watter to satisfy all those moderate power applications. New, smaller physical size permits less conspicuous installation. Bell-clear tone for either low level or maximum power requirements. Full range power: 15 watts. Power (a) Adjusted Range, 20 watts. Frequency response: 275 to 14,000 cps. Voice coil impedance: 8 ohms. Average dispersion: 110°. Sound level (b): 121 db. Dimensions: 8" x 8" x 9" deep.

No. 17-3150. . . . .

SERVICE

IS OUR

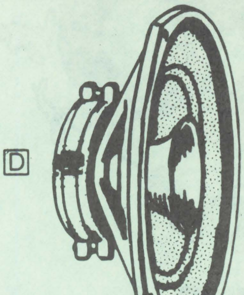
BUSINESS

C SPEAKER MUTING SYSTEM FOR YOUR PHONOGRAPH

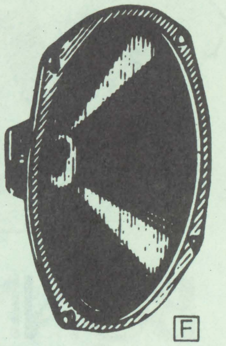
Automatically cuts out TV, radio, FM, background music when coin is inserted for phonograph. Eliminates "fiddling" with controls by location attendants. Eliminates custom wiring. Just 2" x 2-1/4" x 6-1/2". Mounts anywhere and does many jobs. Mutes tuners and amplifiers; operates phono or music system through common speakers. Resistive load is automatically inserted in muted amplifier. 110 volt, 60 cycle. For stereo use two units.

No. 17-2040 . . . .

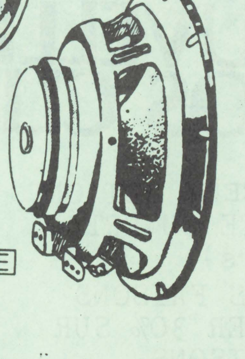
EXTENDED RANGE SPEAKERS



D



F



E

Extended range, quality speakers for all types of Monaural and Stereophonic sound systems.

D "BLUE CONE" DUAL 8" EXTENDED RANGE SPEAKER

"A speaker within a speaker"

The special feature of this speaker is the frequency response from 40 to 20,000 . . . picking up more of the high and low range for better music reproduction! Specially treated Blue Cone for better sound! Has provision for mounting C.V. transformer.

12-15 watts, 8 ohms. Heavy duty 6.8 oz. ceramic magnet. Voice coil diameter: 1". A tremendous value at a low price!

No. 17-3038 . . . .

E "RED CONE" CERAMIC 8" EXTENDED RANGE SPEAKER

"The speaker that sings a song"

12-15 watts, 8 ohms. Heavy duty 6.8 oz. ceramic magnet. Voice coil diameter: 1". Special bracket for C.V. transformer. Special treated Red Cone improves sound distribution. Another tremendous value at a low price!

No. 17-3029. . . . .

F APPROVED SOUND EXTENDED RANGE SPEAKERS

The speaker frame is rigidly constructed for stability of component alignment. Voice coils and the Alnico V magnet are precision centered and all units are plated for continuous top performance.

WICO Approved Sound extended speakers are the finest in sound reproduction at a price that defies comparison.

All speakers — 8 ohms impedance.

A ELECTRIC COIN TIMER BOX

This new design coin timer box is a compact, inexpensive coin control unit capable of handling many types of automatic service equipment.

Equipped with factory preset timer to provide a practical coin meter. Time cycle and denomination of coin must be preset at the factory – when ordering, specify time cycle and coin denomination.

Basic Coin Timer Box consists of:
Coin Rejector (Specify Coin Denomination 5¢, 10¢, 25¢)
Coin Switch
Timer Assembly (Specify Time Required from 1 Minute to 12 Hours)

- Measures 11½" High, 3¼" Deep, 7¼" Wide. Coin Insert adds 2" to height. Can be mounted anywhere!
- 115 Volt, 60 Cycle. Will handle up to 5 Amps.

L/6

No. 31-3200 .... each

The following components can be added to the Basic Coin-Timer Assembly at extra cost as shown:
Electric Counting Meter .... extra
Blockout Relay .... extra
(Prevents unit from accepting coins when not in operation).
Delivery: Approximately 2-3 weeks after receipt of order.
Note: All units are made special and are sold on a non-returnable basis.
Quantity prices are available. Write for quotation.
Special Units are available at additional cost. Write for quotation, stating time cycle and coin denomination required.

B HEAVY-DUTY STEEL PROTECTIVE COVER

For Coin-Timer Boxes, Coin Acceptor & National Rejector

Used on Arcade Games & other equipment using Coin-Timer Boxes.

Prevents jamming and picking of Coin-Timer Box lock and eliminates Coin Box door from being pried open!

Heavy-duty 1/8" welded steel construction. Designed and built to give maximum protection, it is easily fitted over National Rejector and Coin Acceptor Coin-Timer boxes.

Assembly consists of Locking Bar and Steel Cover with primer coat of paint. See Paint Section, Page 84, for matching machine colors. Instructions included.

Padlock not included in price. L/6 L/12 L/25

No. 34-1495 .... ea.

BECAUSE...WE ELIMINATE MANY HOURS OF COSTLY BOOKKEEPING WITH ONE STATEMENT INSTEAD OF MANY------ YOU WRITE ONLY ONE CHECK.

WIKO

BECAUSE...WE ELIMINATE MANY HOURS OF COSTLY BOOKKEEPING WITH ONE STATEMENT INSTEAD OF MANY------ YOU WRITE ONLY ONE CHECK.

10¢ 15¢ 20¢ 25¢

NOW... WIKO HAS THEM!

New Multi-Price Conversion Kits to help you keep up with rising costs

as low as per kit

for

STONER/VENDO

Candy and Pastry Machines

WICO's new multi-price conversion kits will convert your Stoner-Vendo Candy machine from 5¢-10¢ or 10¢-15¢ to 10¢-20¢ or 15¢-20¢ vend . . . and/or will convert your Stoner-Vendo Pastry machine from 10¢-15¢ or 15¢-20¢ to 15¢-25¢ or 20¢-25¢ vend. When converted, machine will not accept quarters and will not return change. Kits include all necessary parts, new price labels and instructions. Conversion can be made on location!

as low as per kit

for

NATIONAL

Candy, Pastry and Snack Machines with sliding coin mechanism

Actually four price conversions in one kit! This kit will convert National Candy, Pastry or Snack machine having 5¢-10¢ or 10¢-15¢ sliding coin mechanism to vend price combinations either 10¢-15¢, 10¢-20¢, 15¢-20¢ or 15¢-25¢. When converted, machine will not accept quarters and will not return change.

NEW! WIKO ELECTRIC NON-RESET COUNTERS

For high reliability at low cost!

as low as each

The new line of WICO non-reset electric counters is value engineered for rugged service. Compactly designed, these counters are only 2½″ high and will operate in any position.

5-digit counter is base mounting, counts at 500 per minute to 99,999 then repeats. Has large white numbers on black background for easy reading.

Available in 24, 48 and 120 volt models.

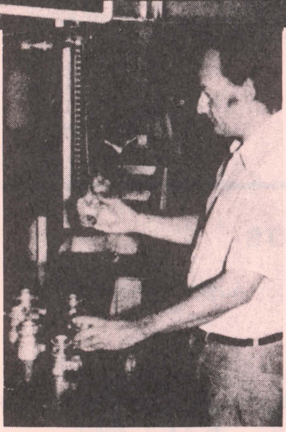
PROCON PUMP REPAIR SERVICE



Most pumps reshipped to you within 24 hours after receipt!

Years of experience show that the most economical pump repair is accomplished by WICO repair technicians. Remanufactured Procon pumps are guaranteed to be free of defects in workmanship and materials for a period of from date of factory shipment. Defective pumps will be repaired or replaced, at no charge, providing our inspection substantiates the claim. Please note that our guarantee is void if the pump has been dismantled. Our guarantee does not cover damage caused by improper operation or pump abuse.

Each Procon Pump is tested and checked for pressure, capacity and quietness. The relief valve can be set to customer's specification and is checked during the testing. Every effort is made to insure that your Procon Pump is perfect.

- Complete reconditioning.
- Precision tested for full pressure.
- Preset at factory to 150 P.S.I.—Adjust to your own pressure needs.

- Most pumps reshipped to you within 24 HOURS after receipt!

NOT ONLY A REPAIR SERVICE . . . WICO RECONDITIONS YOUR ENTIRE UNIT "LIKE NEW"!

WIKO repairs and completely reconditions your entire unit to operate like new and give you 100% performance! Every unit is completely disassembled, including the gear motor, examined thoroughly and tested. Our materials and workmanship are fully guaranteed.

- All parts are examined and tested. We replace only those parts necessary to insure "like new" performance.
- All reconditioned units are operated and tested for peak performance prior to return to you.
- All workmanship is performed by WIKO trained, experienced personnel and double-checked before shipment, to guarantee your complete satisfaction.
- If we find that the cost of repairing and reconditioning your unit will be excessively high, we will give you a quotation on the job before processing your order.

Listed here are commonly used parts. To order parts not shown: Specify name & model of machine. Describe part & mfr. reference no. Specify part position on machine.

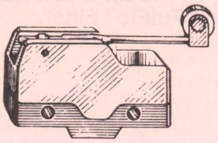
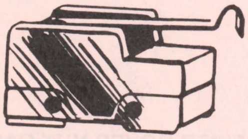
ICE DISPENSER SWITCH



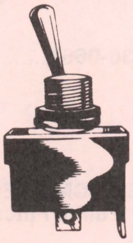
Ref. No. X03408-13C. L/12
No. 23-1142 .... Each

CAM SWITCH



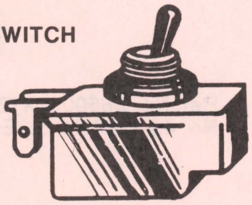
Ref. No. X94916-3C. L/12
No. 60-0064 .... Each

MAIN ON & OFF SWITCH CUP DISPENSER SWITCH & NON-CARBONATED SELECTOR SWITCH



Ref. No. X3864-14C. L/12
No. 23-1003 .... Each

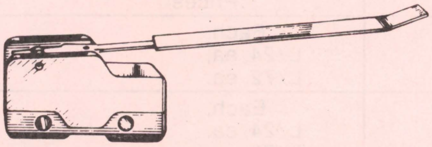
RELAY PANEL SWITCH



Ref. No. X1817-13C. L/12
No. 23-1087 .... Each

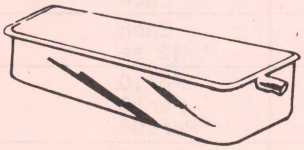
LOW WATER CUTOUT SWITCH

For reservoir.



Ref. No. X94669-3Y. L/12
No. 23-1160 .... Each

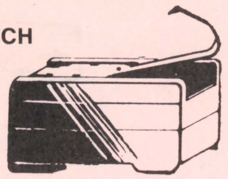
CONDENSATE PAN WITH OVERFLOW



For early & late models.
Ref. No. X67146-P
No. 60-0091 .... Each

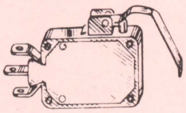
SELECTION SWITCH

(Non-carbonated).



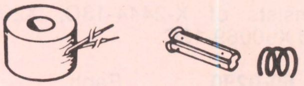
Ref. No. X1975-13MD.
No. 60-0060 .... Each.

INDEX SWITCH CUP EMPTY SWITCH



Ref. No. X1859-13S. L/12
No. 23-1205 .... Each

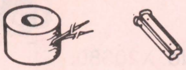
REPLACEMENT PARTS FOR VALVE V5L25660S OR V5L84ZOSR (Old Type)



Ref. No. X2057-13C.

Description	No.	Each	L/6 ea.	L/12 ea.	L/25 ea.
Coil—with leads	**45-3208**				
Plunger	**60-0286**				
Spring	**60-0288**				

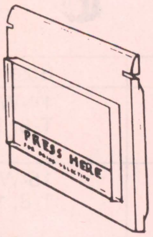
REPLACEMENT PARTS FOR SKINNER VALVE # V5L23300



Used on early models.

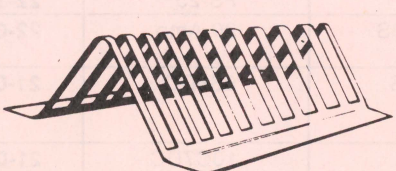
	No.	Each
Coil	**45-3208**	
Plunger	**45-3209**	

LARGE PLASTIC PUSH BUTTON



Ref. No. X3296-13MO L/12
No. 60-0254 .... Each

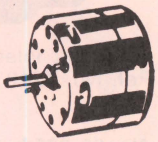
CONDENSATE PAN RACK



Ref. No. 44811.
No. 60-0092 .... Each

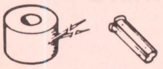
BLOWER MOTOR

For hot plate evaporator.



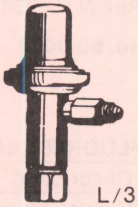
For No. X67628K Ass'y. L/6
No. 45-7031 .... Each

PARTS FOR VALVE V5L25135



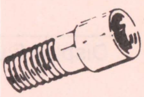
Description	No.	Each	L/6	L/12
Coil-Quick Connect	**60-0292**			
Plunger	**60-0286**			
Spring	**60-0288**			

AUTOMATIC EXPANSION VALVE



L/3
No. 45-1767 .... Each

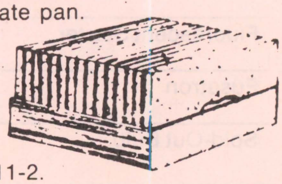
LOCKING STUD SCREW



For front door.
Ref. No. X20628.
No. 34-1330 .... Each

EVAPORATOR PLATES

For condensate pan.



Ref. No. 44811-2.

16 Per Set No.	Each Set	Set L/6	Set L/12
60-0085

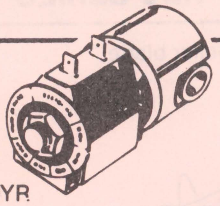
REPLACEMENT PARTS FOR SOLENOID VALVES



TWO-WAY VENT RELIEF SOLENOID
Skinner #V5R29570YR
Model "HBC" Series.
Ref. No. 106915-1.

Description	No.	Each
Coil Only	**60-0292**	
Plunger Only	**45-3209**	

TWO-WAY DUMP & DISPENSING SOLENOID
Skinner #V5R29590.
Model "HBC" Series.
Ref. No. 336373.

Description	No.	Each
Coil Only	**60-0292**	
Plunger Only	**60-4234**	

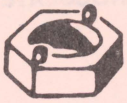
TWO-WAY HOT WATER TANK SOLENOID
Skinner #V5R26700Y.
All models
Ref. No. 336014.

Description	No.	Each	L/6, ea.	L/12, ea.	L/25, ea.
Coil Only	**60-0292**				
Plunger Only	**60-0303**				

TWO-WAY CHOCOLATE & COFFEE HOT WATER SOLENOID
Skinner #V5R26910Y.
Model "HBA" Series.
Ref. No. 335965.

Description	No.	Each	L/6, ea.	L/12, ea.	L/25, ea.
Coil Only	**60-0292**				
Plunger Only	**60-0286**				

SPANNER NUT WRENCH
For Skinner Valves



For removing or installing the sleeve assembly on Skinner Valves.
No. 30-1222 . . . . Each,

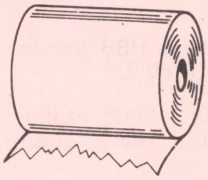
THREE-WAY AIR VENT SOLENOID FOR AIR COMPRESSOR SYSTEM
Skinner #V5R31690.
Model "HBA" Series.
Ref. No. 341890.

Description	No.	Each
Coil Only	**60-0292**	
Plunger Only	**60-4237**	

VENT SOLENOID FOR HOT WATER TANK
ITT #K272Z2006.
Model "HBA" Series.
Ref. No. 338989.

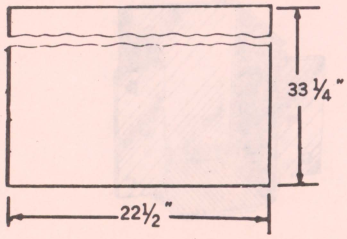
Description	No.	Each
Coil Only	**60-4225**	
"O" Ring Only	**30-2510**	

VENDOR'S "Super Grade" COFFEE FILTER PAPER
For Series "HBA" single cup coffee machines. Vendo Size Roll. 1700 Drinks. 1⅛" Core. 6" Diameter. 575' Long. 1 Lb. per Roll. Packed 72 per case.



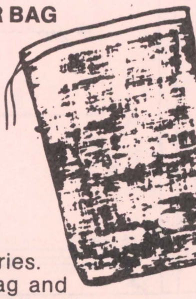
No. 45-1675
L/6, ea. L/12, ea. L/24, ea. L/72, ea. L/144, ea.

HEAVY-DUTY 4-MIL THICK DISPOSABLE PLASTIC REPLACEMENT BAGS FOR VENDO MODELS "HBA" SERIES



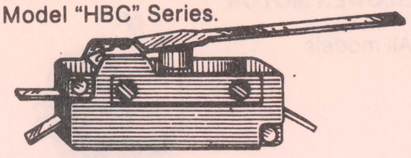
Ref. No. 341799-1. Size: 22½" Wide, 33¼" High.
L/50, ea. L/100, ea. L/250, ea.
No. 27-2160

COFFEE FILTER BAG



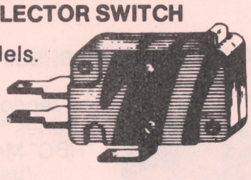
Model "HBC" Series.
White cotton bag and tie string. Size: 6" x 4".
Ref. No. 300847.
L/500, ea. L/1000, ea. L/2000, ea.
No. 60-4228

RESERVOIR HEATER SWITCH
Model "HBC" Series.



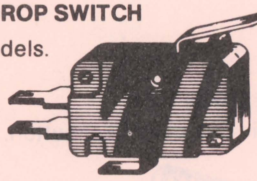
Ref. No. 324158.
No. 23-1146
Each L/12, ea. L/50, ea. L/100, ea.

COFFEE SELECTOR SWITCH
TEA SELECTOR SWITCH
All models.



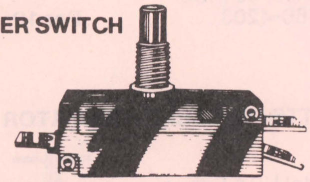
Ref. No. D 10-8084.
No. 23-1121
Each L/12, ea. L/50, ea. L/100, ea.

CUP DROP SWITCH
All models.



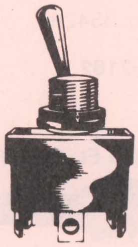
Ref. No. 337576.
Each L/12, ea. L/24, ea.
No. 23-1116

BREWER SWITCH



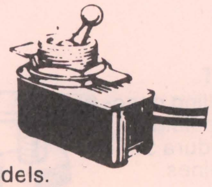
Model "HBC" Series.
Ref. No. 323007-1.
No. 23-1153
Each L/12, ea. L/50, ea. L/100. ea.

CONTROL BOX TOGGLE SWITCH
Double pole,
Double throw.



Model "HBC" Series.
Ref. No. 338650.
Each L/12, ea.
No. 23-1006 . . . . .

POWER BOX SWITCH
Single pole, single throw.

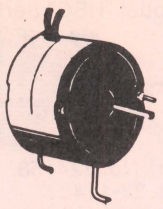


All models.
Ref. No. 46209.
Each L/12, ea.
No. 23-1198 . . . . .

For price labels, see pages 95-101.

REPLACEMENT PARTS FOR
VENDO COFFEE MACHINES
HBA SERIES - SINGLE CUP
HBC SERIES - BATCH BREW

BLOWER MOTOR
All models.



Ref. No. 108593-11.

REPLACEMENT OVERLAY INSTRUCTION PANELS FOR ROWE EQUIPMENT—PRESSURE SENSITIVE

Models: L1020A, L1030A; AK-8, SK-8; SK-9; 212; 214; 147 all purpose merchandiser: celebrity series candy, pastry and hot canned food machines. These overlay replacement panels have a protective coating of clear Mylar over the entire surface, which prevents scratching or rubbing off of the lettering. Easy to install on location! With these attractive new panels you can eliminate replacement of the original panels, which are easily scratched and are often very expensive to replace. **Panels with clear vinyl overlay** are printed in black on silver foil, except for Model 147 panel, which is white on blue mylar. **Woodgrain panels** simulate natural wood finish, with copy printed in white.

REPLACEMENT PARTS FOR
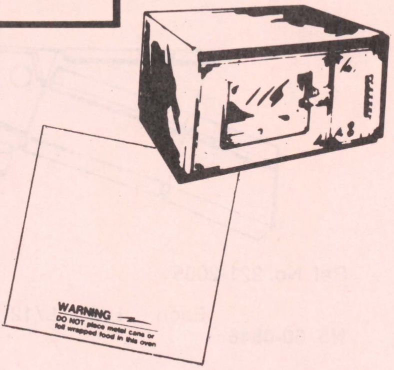
LITTON MICROWAVE OVENS

Special Note: When ordering replacement parts for Litton Microwave Ovens, always give model number and Manufacturer's Reference Number for parts required. The parts listed below are not always interchangeable from one model to another.

For parts not shown, please specify model number of oven, manufacturer's reference number and name of part required.



WARNING
DO NOT place metal cans or foil wrapped food in this oven

DISPOSABLE SHELF LINER AND WARNING SIGN

For all microwave ovens!
Eliminates periodic cleaning of glass shelf and warns against use of metal cans or foil wrapped foods in microwave ovens. Size 12½" x 12½" white chipboard can be easily trimmed to fit any microwave oven shelf. Has clear protective finish (for easy cleaning) with red printing.

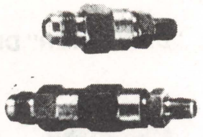
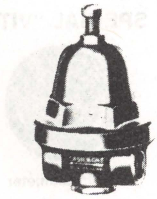
REGULATORS AND VALVES



WATER CHECK VALVE

Size: ⅜″ S.A.E. Male Inlet by ⅛″ N.P.T. Male Outlet. Replace with double check valves to bring your machine up to modern specifications! Prevent dangerous back-ups! Steel ball check! Stainless steel construction!

Type Valve	No.	Each	L/3 ea.
Single Check	60-0055		
Double Check	60-0054		

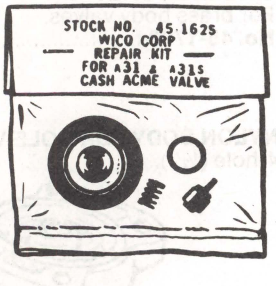


CASH ACME PRESSURE REGULATORS

For control of water and other liquids. Will reduce a high pressure to a lower pressure and maintain it within close limits! Designed for initial pressures up to 300 P.S.I. with reduced pressures from 2 to 180 P.S.I. Adjustable screw type adjustment piece. With improved performance.

Description	Connection Size	Ref. No.	No.	Each	L/6 Each
Two-way	¼″		45-1595		
	⅜″	A31	45-1596		
Three-way Bottom Inlet	¼″		45-1598		
	⅜″	A31	45-1599		
Three-way Side Gauge	¼″		45-1601		
	⅜″	A31S	45-1602		

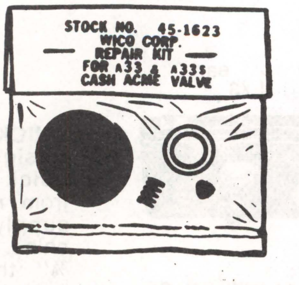
REPAIR KITS FOR CASH ACME VALVES For A31 and A31S



Everything you need for complete valve repair! Includes: Diaphragm and Brass Cup, Piston Assembly, Piston Spring and Fiber Gasket.

Description	No.	Each	L/12 ea.
Repair Kit for A31 & A31S Valves	45-1625		
Diaphragm only	45-1626		

REPAIR KITS FOR CASH ACME VALVES, For A33 and A33S.



Nos. A33 and A33S.
Everything you need for complete valve repair! Includes: 2 Diaphragms, Composition Seat Disc, Piston Spring, Copper Gasket.

Description	No.	Each	L/12 ea.
Repair Kit for A33 & A33S Valves	45-1623

VALVE KITS FOR VENDING MACHINES

Ice Makers, Evaporative Coolers and Humidifiers. A better way to tap copper, brass, steel or poly tubing! No shut-down necessary for installation!

Self-Tapping Valve Kit for brass, copper or poly tubing ⅜″ to 1⅜″ O.D. Valve outlet is ¼″ compression fitting. Overall height 1½″; width 2″. No hole to drill. Screwing down the handle pierces the tubing. (Handle becomes adjustable valve control). Brass valve body and spindle; stainless steel handle and piercing lance.
No. 45-1101 .... Each

Take-off Valve Kit for easy, foolproof hookup to ⅜″ O.D copper or poly tubing. New, inexpensive self-contained adjustable brass take-off valve with tapered self-aligning compression sleeves for all three tubing ends. Nothing to drill o tap! Simply insert, seat and tighten the nuts. Valve outlet fo ¼″ O.D. tubing.
No. 45-1102 .... Each

Self-Tapping Valve Kits for broad use on water and gas installations. No drilling or cutting pipe. No shut-down necessary. Overall height 4″; width 2¼″.

For ¾″ steel or brass pipe; 1¹⁄₁₆″ O.D. and 1″ copper tubing, approximately 1⅛″ O.D.
No. 45-1103 - ⅜″ SAE flare branch tap fitting .... Each
No. 45-1104 - ⅜″ MPT branch tap fitting .... Each
No. 45-1105 - ¼″ FPT branch tap fitting .... Each
For ½″ steel or brass pipe; approximately ⅞″ O.D. and ¾″ copper tubing, approximately ⅞″ O.D.
No. 45-1106 - ⅜″ SAE flare branch tap fitting .... Each
No. 45-1107 - ⅜″ MPT branch tap fitting .... Each

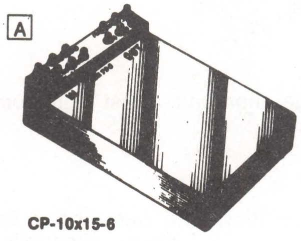
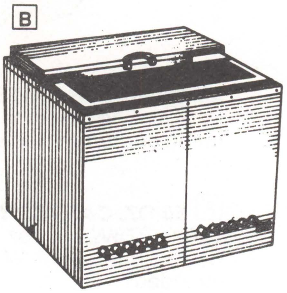
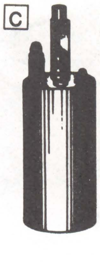
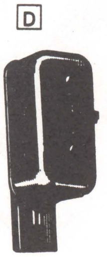
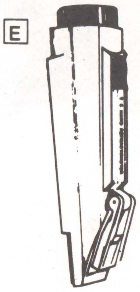
PRE-MIX AND POST-MIX ACCESSORIES











A PURE ALUMINUM POLAR CHIPS

Post-Mix & Pre-Mix Cold Plates

POST-MIX COLD PLATES

Polar Chips post-mix cold plates, available in 1-, 2-, 5- and 6-circuit models. Carefully formed pure aluminum casting contains large diameter stainless steel tubing with smooth bends to reduce pressure loss. To boost performance, each plate has sufficient tilt to insure fast water run-off. ¼″ male flare fittings on both inlets and outlets.

B POLAR CHIPS COLD CHESTS

For high capacity cooling with ice—Polar Chips cold chests are engineered for all pressurized post-mix systems, electric or manual . . . in models for 2-, 5- or 6-circuits or as ice chest only. Optional floor stands are available at extra cost. These ice chests are designed for use as master cooling units for pressurized beverage systems. The ice bin also provides for ice storage for drinks. Chests may be installed with fittings on front or rear. For drop-in counter installations an optional factory-installed heavy duty aluminum rim adapter is available at extra cost.

For prices and additional information, contact WICO.

C LEVEL MASTER M-1 MAGNETIC PROXIMITY SWITCH CARBONATOR TANK

Model M-1, perfected by the originator of the magnetic proximity switch carbonator! It helps give the soda pure taste obtainable only from the finest carbonators! Water-in fitting is ⅜″ or ¼″ male flare. CO_2 and soda-out fittings are ¼″ male flares. They require no sealing compound—nor additional fittings to attach to standard gas and water lines. "Sealed setting" design of gas and water check valves provides positive shut-off in closed position and ample by-pass capacity in open position. Container, float and valves are made entirely of high-grade 300 series stainless steel for pure taste soda!

No.	Each	L/3, ea.	L/6, ea.

45-1395 (less switch)			

D JO-BELL MODEL J-385 MAGNETIC PROXIMITY SWITCH FOR CARBONATORS

#J-385 Magnetic Proximity Switch—interchangeable with most existing float operated carbonators. UL approved switch rated 1 HP or 25 amps. Neoprene gasket seals switch cover to keep switch water tight . . . yet it is removable for easy access to mechanism, thus a complete proximity switch need never be purchased again! Anodized aluminum cover and all stainless steel construction ends corrosion and offers greater dependability, longer life.

No.	Each	L/3, ea.	L/6, ea.

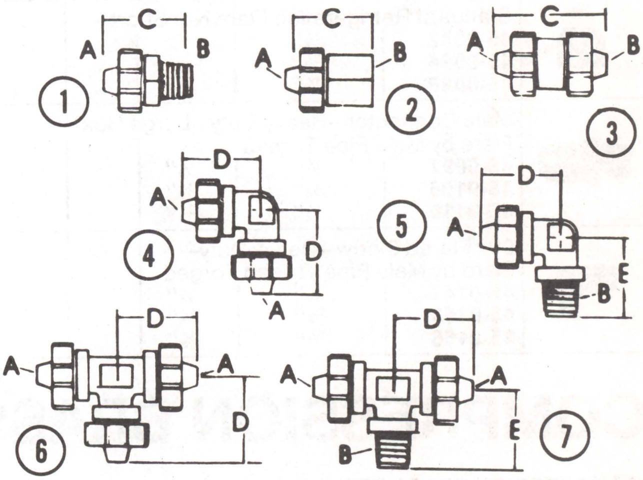
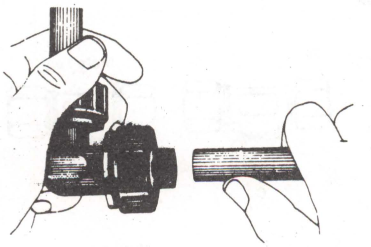
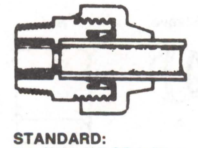
POLYETHYLENE TUBING & BLACK NYLON FITTINGS

A new system specifically designed for utmost simplicity in connecting tubings . . . polyethylene, nylon, CPVC, copper and aluminum! NSF and FDA approved! Connectors, unions, elbows and tees are "miracle" Black Nylon. Each fitting has a stainless steel grab ring and Buna-N u-cup for positive seal. This inert, tough material is ideal for hot or cold potable liquids in condensate, evaporative cooler installation; air, water, oil and chemical lines. Push-in principle for tube insertion—noting to turn or tighten—just "bottom" the tubing and it's sealed. No solvent needed. (350 psi working pressure using a 4-to-1 factor. Burst pressure 1400 psi). Ribbed nuts remove easily by hand. Fittings are produced from hydrolysis and U.V. resistant type 6/6 nylon. Nylon fittings shipped assembled with nuts in loose position. No tools required. Fittings may be disassembled and reassembled repeatedly. Temperature range 180°F to -21°F.







STANDARD:
For ⅜" & ½" OD tubing.

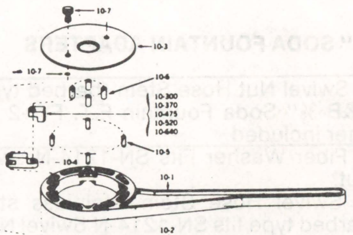
COMPONENT PARTS

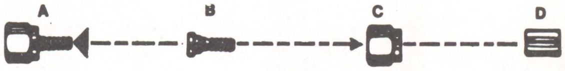


Component Parts for CT-10 Crimping Tool

Ref. No.	Description	No.	Each
10-1	Main housing handle	**45-6182**	
10-2	Lower housing handle	**45-6183**	
10-3	Cover plate	**45-6184**	
10-4	Link (4)	**45-6185**	
10-5	Link pin (4)	**45-6186**	
10-6	Die pin (4)	**45-6187**	
10-7	Cover plate screw (2)	**45-6188**	
10-8	Housing screw (1)	**45-6189**	
Die Set (4)			Set of 4
10-370	For .143 tubing	**45-6190**	
10-475	For .265 tubing	**45-6191**	
10-520	For .265 tubing	**45-6192**	
10-640	For .375 tubing	**45-6193**	

HANSEN FITTINGS

HANSEN STAINLESS STEEL ¼" & ⅜" FLARE FITTINGS

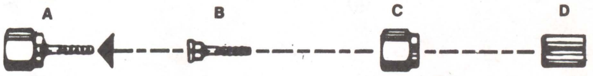


¼" Flare Fittings. For .265 Braided Tubing.
A Swivel Nut Hose Stem (Barbed Type). 7/16"-20 F.T. Ref. No. 72-BN-B.
No. 45-6157 .... Each
B Swivel Hose Stem (Barbed Type. Ref. No. S-72-BN-B.
No. 45-6158 .... Each
C Swivel Nut (nickel plated brass) 7/16"-20 F.T. Ref. No. SN-72-2.
No. 45-6159 .... Each
D Ferrule (nickel plated brass). Crimped style. Ref. No. F-550.
No. 45-0925 .... Per 100

⅜" Flare Fittings. For .265 Braided Tubing.
A Swivel Nut Hose Stem (barbed type). ⅝"-18 F.T. Ref. No. 382-SCB.
No. 45-6160 .... Each
B Swivel Hose Stem (barbed type). Ref. No. S-382-SB.
No. 45-6161 .... Each
C Swivel Nut (nickel plated brass). ⅝"-18 F.T. Ref. No. SN-382-N.
No. 45-6162 .... Each
D Ferrule (nickel plated brass). Crimped style. Ref. No. F-550.
No. 45-0925 .... Per 100

⅜" Flare Fittings. For .375 braided tubing.
A Swivel Nut Hose Stem (barbed type). ⅝"-18 F.T. Ref. No. 383-SCB.
No. 45-6163 .... Each
B Swivel Hose Stem (barbed type). Ref. No. S-383-SB.
No. 45-6164 .... Each
C Swivel Nut (nickel plated brass). ⅝"-18 F.T. Ref. No. SN-382-N.
No. 45-6162 .... Each
D Ferrule (nickel plated brass). Crimped style. Ref. No. F-650.
No. 45-0926 .... Per 100

HOSE FITTINGS—CRIMPED STYLE



Stainless Steel (unless otherwise noted)

A Swivel Nut Hose Stems (barbed type. ½"-16 F.T. Includes swivel hose stems and nuts.

B Swivel Hose Stems (barbed type). 45° female flare. Included with swivel nut hose stem unit—but available separately as listed below.

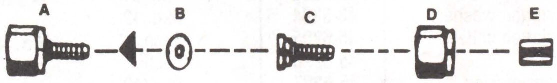
C Swivel Nut (nickel plated brass). ½"-16 F.T. Included with swivel nut hose stem unit—but available separately as listed below.

D Ferrule (nickel plated brass). Available as separate unit only.

For .143 Braided Tubing
A Swivel Nut Hose Stem—Ref. No. 374-SCB.
No. 45-6150 .... Each
B Swivel Hose Stem—Ref. No. SN-3722-SB.
No. 45-6151 .... Each
C Swivel Nuts—Ref. No. SN-3723-N.
No. 45-6145 .... Each
D Ferrules—Ref. No. F-400.
No. 45-0924 .... Per 100

For .265 braided tubing.
A Swivel Nut Hose Stem—Ref. No. 375-SCB.
No. 45-6152 .... Each
B Swivel Hose Stem—Ref. No. SN-3723-N.
No. 45-6153 .... Each
C Swivel Nuts—Ref. No. SN-3723-N.
No. 45-6145 .... Each
D Ferrules—Ref. No. F-550.
No. 45-0925 .... Per 100

HANSEN FITTINGS FOR FOUNTAIN SALES



⅜" SODA FOUNTAIN ADAPTERS

A Swivel Nut Hose Stem (barbed type). B&B ⅜" Soda Fountain F.T. FW-2 washer included.

B Fiber Washer Fits SN-1214-N swivel nut.

C Swivel Hose Stem—stainless steel, barbed type fits SN-1214-N Swivel Nut.

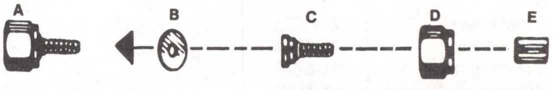
D Swivel Nut (nickel plated brass). B&B ⅜" Soda Fountain F.T.

E Ferrule (nickel plated brass). Crimped style.

⅜" Soda Fountain Adapters For .265 Braided Tubing.
A Swivel Nut Hose Stem—Ref. No. 1214BN-B.
No. 45-6165 .... Each
B Fiber Washer—Ref. No. FW-2.
No. 45-6166 .... Per 100
C Swivel Hose Stem—Ref. No. S-1213-SB.
No. 45-6167 .... Each
D Swivel Nut—Ref. No. SN-1214-N.
No. 45-6168 .... Each
E Ferrule—Ref. No. F-550.
No. 45-0925 .... Per 100

⅜" Soda Fountain Adapters For .375 Braided Tubing.
A Swivel Nut Hose Stem—Ref. No. 1214BN-B1.
No. 45-6169 .... Each
B Fiber Washer—Ref. No. FW-2.
No. 45-6166 .... Per 100
C Swivel Hose Stem—Ref. No. 1213-SB1.
No. 45-6170 .... Each
D Swivel Nut—Ref. No. SN-1214-N.
No. 45-6168 .... Each
E Ferrule—Ref. No. F-650.
No. 45-0926 .... Per 100

½" SODA FOUNTAIN ADAPTERS



A Swivel Nut Hose Stem (barbed type). B&B ½" Soda Fountain F.T. FW-3 Washer included.

B Fiber Washer fits SN-1314 swivel nut.

C Swivel Hose Stem—stainless steel, barbed type. Fits SN-1314-N swivel nut.

D Swivel Nut (nickel plated brass). B&B ½" Soda Fountain F.T.

E Ferrule (nickel plated brass). Crimped style.

½" Soda Fountain Adapters For .265 Braided Tubing.
A Swivel Nut Hose Stem—Ref. No. 1314BN-B.
No. 45-6171 .... Each
B Fiber Washer—Ref. No. FW-3.
No. 45-6172 .... Per 100
C Swivel Hose Stem—Ref. No. S-1213-SB.
No. 45-6167 .... Each
D Swivel Nut—Ref. No. SN-1314-N.
No. 45-6173 .... Each
E Ferrule—Ref. No. F-550.
No. 45-0925 .... Per 100

½" Soda Fountain Adapters For .375 Braided Tubing.
A Swivel Nut Hose Stem—Ref. No. 1314BN-B1.
No. 45-6174 .... Each
B Fiber Washer—Ref. No. FW-3.
No. 45-6172 .... Per 100
C Swivel Hose Stem—Ref. No. S-1213-SB1.
No. 45-6170 .... Each
D Swivel Nut—Ref. No. SN-1314-N.
No. 45-6173 .... Each
E Ferrule—Ref. No. F-650.
No. 45-0926 .... Per 100

REFRIGERATION ACCESSORIES

COMPLETE KIT

PORTABLE ELECTRONIC REFRIGERATION LEAK DETECTOR KIT

GE portable H-10 electronic refrigeration leak detector, with case and maintenance kit. Finds leaks fast, without guesswork. Detects leaks as small as ½ oz. per year, with 1-second probe response. No other leak detector compares for overall speed, sensitivity, simplicity and satisfaction. It assures the refrigeration serviceman fewer callbacks and greater customer satisfaction. Features include solid-state components in a tough, shock-resistant case. Built-in airflow and leak references give in-operation checks on performance. On-top controls for convenient adjustment. Rapid-flash leak signal, keeps flashing until probe is removed from leak. Long-life, sensitive element. Specifications: 110-127V, 60 cycles, 12W. Sensitivity 0.5 oz./yr. R-12 on HI, 1.0 oz./yr. R-12 on LOW. Response time approx. 1 second. Reference leak R-11 (refillable), approx. life 1 yr. Warm-up time approx. 1 min. Temperature operating range 20°F to 120°F, storage 167°F max. Duty cycle recommend 1 hr. "on," 1 hr. "off." Dimensions 4.5x2.6x8.5 inches. Shipping wt. 3 lbs.

SYSTEM ANALYZER BY IMPERIAL-EASTMAN

For charging, testing, purging. A well-engineered tool every vending serviceman will appreciate! It is a unique, completely color-coded unit . . . lightweight, portable and completely convenient. All "no leak" construction! Flat back, "Up Front" valves and swivel-hanging bracket let you place the unit most conveniently for service. Color-coded valve handles, charging lines and gauge thread protectors permit easy check even in bad lighting. Four port connections provide for high and low side refrigerant and vacuum lines. Fourth port with depressor valve for vacuum line. All connections are ¼" O.D. flare. Built-in hose plugs. 2½" gauges with white dial and large, clear numerals for easy reading; color separated scales: black for pressure, green for vacuum, red for temperature. Recalibration screw on gauge face. With ⅛" male pipe thread.

Ref. No.	Description	No.	Each
461-CA	Analyzer complete with 2 gauges, 3 charging lines..	**45-1460**	
453-CA	Analyzer only, without gauges or charging lines.	**45-1461**

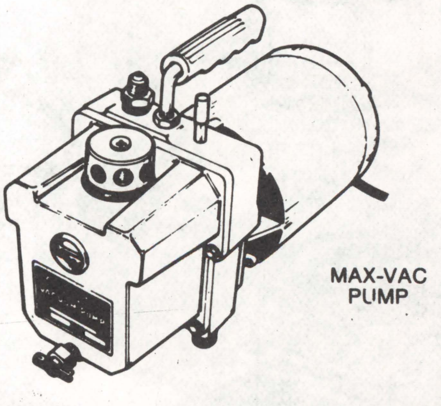
IMPERIAL-EASTMAN MAX-VAC DEEP VACUUM PUMP

For professional servicing of refrigeration & air conditioning. The Max-Vac is a 2-stage, rotary vane type, gas ballast pump with a capacity of 1.5 CFM (42 liters per minute). Made for the professional who wants adequately dehydrate systems. Excels over ordinary pumps: Draws deep vacuum—a vacuum of 25 microns (or better) in field service and up to .1 micron under laboratory conditions. 2-stage, rotary vane type—produces greater vacuum with more efficient removal of moisture vapor. Gas ballast helps prevent condensation in the pump. Compact, lightweight construction—beltless design provides safety and lighter weight. No exposed moving parts! Rubber feet muffle noise and vibration. Convenient carrying handle. Made for dependable service—stator and rotor are cast iron alloy with high nickel content. Oil is vacuum fed for proper lubrication and pumping efficiency. Ample oil capacity handles contaminates more effectively.

No. 45-1467 .... Each



MAX-VAC PUMP

Specifications: Capacity: 1.5 cfm (42 liters per min.); Vacuum: 25 microns (field service); .1 micron (lab. conditions); Oil capacity: 1 pint (approx.); Operating temp.: 150°F (±18°); 60°C (±10°); Intake port: ⅜" O.D. male flare ⅓ hp, 115V, 60 cy., 6.8 amps, sgl. phase, 1725 rpm, overload protected; Overall size: 6½" W, 14⅞" L, 9½" H; Net weight: 37 lbs.

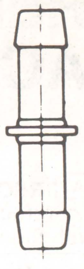
OETIKER HOSE MENDERS



Thin wall, high strength, maximum flow. Constructed of cold-formed special quality steel, zinc-plated to guard against rust. They provide maximum flow without sacrificing strength. Barb at each end assures firm grip. Center rib adds strength, assures proper positioning. These menders provide an inexpensive method for joining or mending hose.

NORGREN CO$_2$ REGULATORS & REPLACEMENT PARTS

THE NORGREN POST-MIX MINIATURE CO$_2$ REGULATOR

A compact regulator with multiple ports for secondary applications . . . the #11-111 is compact, 2⅝″ high, and provides five ⅛″ outlet ports. Designed to function with primary pressures up to 400 psig. Regulated pressures range from 1 thru 50 psig. Has a non-rising adjusting knob which can be easily turned between thumb and forefinger. No additional space needed for adjusting screw room. Replace all secondary regulators with this economical space-saver! Gauge and bracket not included . . . order gauge and bracket separately.

NORGREN CO$_2$ REGULATORS—POST-MIX/PRE-MIX

With Unique Self-Relieving Cartridge Valve. How to order: The most popular regulators & combinations are listed. Place your order with WICO! Diet Drinks—if the combination you require needs a low pressure regulator(s) for diet drinks, please state the number required for diet drinks. Combinations Not Listed: If your requirements differ and the product combination you need is not shown, contact WICO for details! Caution: Pressure relief valves, or some other means of protection, must always be included downstream of the pressure-reducing regulator in systems using high pressure primary gases. Failure to provide means for venting excess pressure can result in equipment damage and physical injury in case of regulator malfunction. A check valve at the regulator outlet should always be included to prevent reverse flow through the regulator and possible introduction of syrup or other contaminants. These regulators may not be used in applications where maximum recommended operating specifications may be exceeded. Check & relief valves with ¼″ PT to ¼″ flare. Tank connector thread .830-14RH internal.

NORGREN CO_2 CYLINDER SWITCH-OVER DEVICE

Permits switching from an empty to a full CO_2 cylinder without disrupting beverage service for carbonator—use check & relief valve. When one CO_2 cylinder runs empty, simply turn on the full tank and turn off the empty, then replace the empty cylinder at a convenient time. Back-check valves prevent gas in the full cylinder from entering the empty chamber if the valve on the empty cylinder is not turned off as it should be. Complete switch-over device (as shown).

WATER RECIRCULATING UNITS & PARTS

This Water Recirculating Unit eliminates the problems of disposing of water melting from ice makers in cold drink machines. It eliminates condensate pans and evaporators! And, water recirculation through the ice maker does away with lime deposits, water scale, mineral residue . . . and the many problems they create! Available for Seeburg or Apco Cold Drink Machines. Please specify when ordering.
KIT INCLUDES: Motor, Valve and Tubing

STANDARD KIT
This unit utilizes an economy air system and works without fail. Coordination of proper tubing diameter with cubic inch displacement of the pumps system allows unit to recirculate any amount of melt-down. Unit includes free motor air pump repair kit! Installation Time: 5 Minutes.

HAKO WATER CONDITIONER CARTRIDGE

This small Hako Water Conditioner, placed in your vending machine water line will be your "Silent Maintenance Man" for your equipment! Water flowing thru Hako's patented directional control and special treating element will control its mineral scale formations. This unit will condition the water, changing the minerals that form scale to a purgable material. Chemicals are not needed. Major parts replacement and time-consuming cleaning are unnecessary! Hako Water Conditions offer these special advantages: No operation costs (No cartridge to replace)! No moving parts. No chemicals required. Controls oxidation. Loosens existing scale formation. Prevents formation of new scale. No recharging necessary. Small Compact Size: 8" Long, 1½" diameter. Furnished with ⅜" flared fittings on each end.

WATER CONDITIONERS AND PURIFIERS

EVERPURE QC4®
15-second cartridge change—eliminates machine downtime. No tools necessary—requires only a few quick hand movements. Service training takes only minutes—easy as filling a cup turret. No parts problems—throw-away cartridge fits into stationary head. No activation required—no buckets of waste water to carry away. Everpure QC4 can save you money on maintenance calls and for the first time your routeman can control *all* beverage ingredients including water, which makes up more than 85% of the drinks you serve. Now you can vend top quality beverages, made with famous Everpure polished water, for only a fraction of what it used to cost.

QC4-H FOR HOT DRINK MACHINES
Complete unit as shown at right, including disposable hot drink cartridge #4-H. Solves all water problems common to coffee brewing: reduces lime scale problems, removes all dirt, cloudiness, tastes and odors from water. Average capacity: 30,000 6-oz. vends.
No. 45-1648 .... Each

QC4-C FOR COLD DRINK MACHINES
Complete unit as shown at right, including disposable cold drink cartridge #4-C. Removes all dirt, cloudiness, tastes and odors from water. Average capacity: 30,000 6-oz. vends.

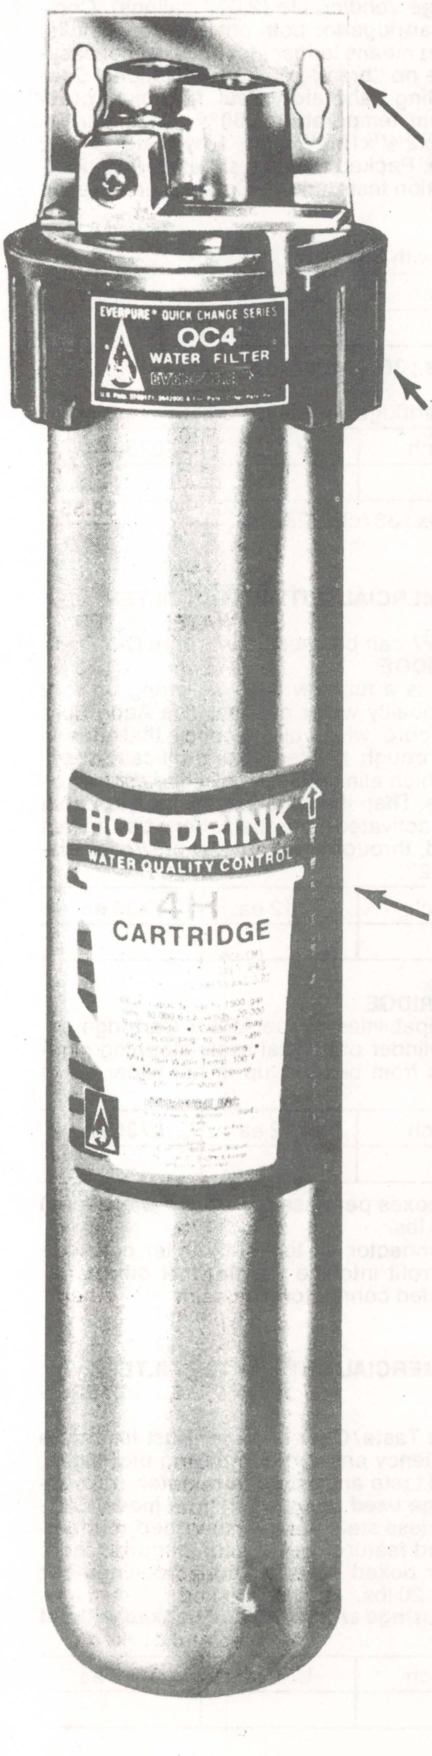
EVERPURE
QC4™

HOT DRINK MODEL

COLD DRINK MODEL



MOUNTING BRACKET
Cadmium finished steel. Adjustable for rear-wall or side-wall mounting.

HEAD ASSEMBLY
Forged brass on the inside, chrome-plated on the outside. Epoxy coated driving skirt. Adaptor bushings allow existing Everpure bracket to be used when replacing Everpure Models C3-VP or C3-HP with QC4-C or QC4-H.

BUILT-IN WATER SHUT-OFF VALVE
Lifting the handle shuts off water to the machine; lowering the handle turns water back on.

"QUICK-CHANGE" THROW-AWAY CARTRIDGE
Contains inert septum and Micro-Pure® water purifying material for the removal of all dirt and cloudiness, offensive chlorine and other musty, fishy tastes and odors. Two types available: #4-C for cold drink machines, #4-H for hot drink machines (includes built-in feeder with a special water stabilizer to reduce lime scaling when water is heated). Completely disposable.

Aqua-Pure®

WATER FILTERS

A AQUA-PURE® AP300 QUICK-MOUNT WATER FILTER

Removes dirt and rust. Removes tastes and odors. Inhibits scale build-up. Cuts costly repairs. NSF approved. Offers longer life, better performance at lower cost. Use the AP300—you'll like the difference a better filter makes! Aqua-Pure AP300 features: Lower cost . . . efficient design results in cost advantages. Superior scale inhibitor rated 90% effective. 40,000 cup average vending life (2,000 gallons). Compact filter with single cartridge for both hot and cold drinks. Low pressure restriction means longer life. Disposable, easy-change cartridge needs no "break-in". Carries National Sanitation Foundation Testing Laboratory Seal. Maximum pressure 125 PSI. Maximum temperature 100°F. The filter installed measures 2½"x2½"x10⅝" high. Flow rate is 1/2 GPM of intermittent use. Packed with two sheet metal mounting screws and installation instructions. Connections are ¼" NPTF.

AP300 Complete Filter with Cartridge

B AQUA-PURE COMMERCIAL DUTY WATER FILTER CARTRIDGES

Models AP277 & APS227 can be used in Everpure C-3 Filter.

MODEL AP227 CARTRIDGE

The Aqua-Pure AP227 is a full-flow filter delivering up to 2 GPM for all the bottle-quality water needed. The Aqua-Pure filter cartridge has a pure white plastic shell that admits water at the bottom through a filter of scientifically processed cellulose fiber which eliminates sand, silt, dirt, rust, algae, and other particles. Then the water passes up through a deep bed of premium activated charcoal where bad tastes and odors are removed, through a pure white post-filter element, and out. Height 12".

No.	Each	L/12 ea.	L/36 ea.
45-1371			

MODEL APS227 CARTRIDGE

Combines the same capabilities as the AP227 Cartridge except it has a built in cylinder of special scale stopping crystals that keep minerals from building up in hot water tanks and lines. Height 12".

No.	Each	L/12 ea.	L/36 ea.
45-1372			

Packing: 2 per box, 4 boxes per case—14 lbs. (8 Cartridges) or 36 bulk per case—63 lbs.

Note: The threaded connector on top of the filter cartridge allows its use as a retrofit into the housings of others designed to receive threaded connector type filters.

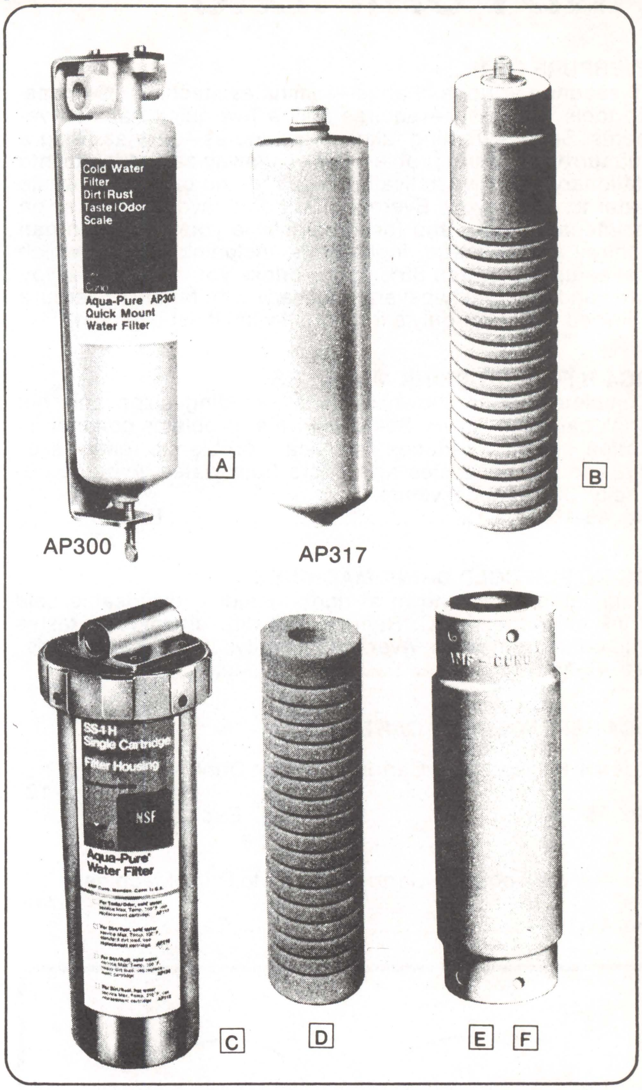
C AQUA-PURE COMMERCIAL DUTY WATER FILTERS AND CARTRIDGES

MODEL SS1-H

Heavy duty, Aqua-Pure Taste/Odor and Dirt/Rust filters are the low-cost, high efficiency answer to removing dirt, algae, sediment, rust, silt, bad taste and odors from water, depending on the **filter cartridge used** (see below). The model SS1-H is a heavy duty, stainless steel housing designed for commercial applications and features ⅜" horizontal connection. Height 12". Each filter boxed and packed 4 housings per carton, shipping weight 20 lbs.

Special Note: Filter housings are priced and packed without filter cartridge.

No.	Each	L/4 ea.	L/12 ea.
45-1373			



REPLACEMENT FILTER CARTRIDGES FOR MODEL SS1-H FILTER HOUSING

D MODEL AP110—STANDARD DUTY COLD WATER DIRT/RUST FILTER CARTRIDGE

Replaces CVC-5D cartridge & fits old CVF-1D & CVF-2D filter. Packing: 2 per box, 12 boxes per case, 24 cartridges—12 lbs. or 36 bulk per case—20 lbs.

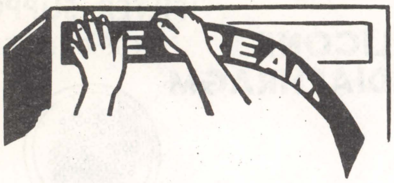
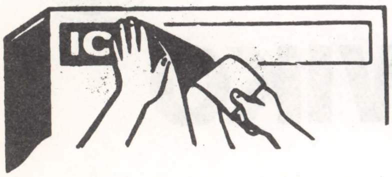
INSTALLATION IS SIMPLE



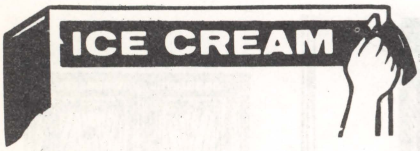
STEP 1

Peel backing from lefthand half of sign and position on machine, aligning top and left side with frame on machine.



STEP 2

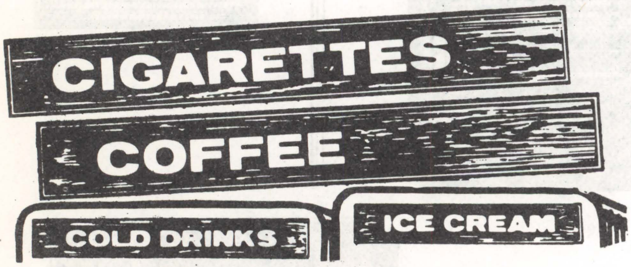
Smooth from center out. Repeat process with other half.



STEP 3

Trim excess material from bottom and right side as necessary, using knife or razor blade

IMPORTANT—Apply only on CLEAN SURFACE!



WOODGRAIN HEADERS WITH PERMANENT PRESSURE SENSITIVE ADHESIVE BACKING

In just a few minutes, with Wico's beautiful new header signs lettered in bright white on simulated woodgrain panels of durable, washable, heavy-duty vinyl, you can modernize your old vending machines. And save a lot of time and money, while increasing your sales! These attractive headers fit right over your old glass and are easily trimmed to insure a perfect fit. No longer will you lose customers who turn away because lights are faulty or dead in your signs. And, you no longer have to stock or service fluorescent fixtures. That means less downtime for your machines, less work for your servicemen and more profits for you.

WOODGRAINED VINYL HEADERS
For Vending Machines. Size: 5⅝" x 36" overall.

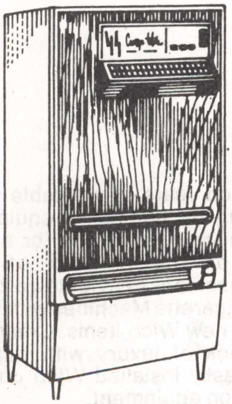
VINYL APPLICATOR
New style, non-marring hard plastic, pocket-size, is ideal for installing vinyl coverings, headers, trim, etc., and water decals or pressure sensitive labels.

	Each	L/10, ea.
No. 26-6411		



DECORATIVE VINYL COVERING—
8 mils thick; 48" widths.
A family of tough, flexible, self-adhesive pressure sensitive decorative vinyls in a series of woodgrain patterns designed as replacements for original finishes on brand-name equipment for coin-operated games, music and vending machines. Just peel the backing and apply. Ideal for covering rough, scratched surfaces on machines used indoors. It is completely water resistant, cleans readily with soap and water or mild detergent and is highly resistant to staining from all common liquids such as coffee, juices, soft drinks, alcoholic beverages, etc. Subsurface print. Excellent dimensional stability.
Note: Full roll is 50 yards long. As orders for less than 50 yards must be cut to your specifications, we cannot accept for credit the return of any quantity less than a full roll. Samples available upon request!

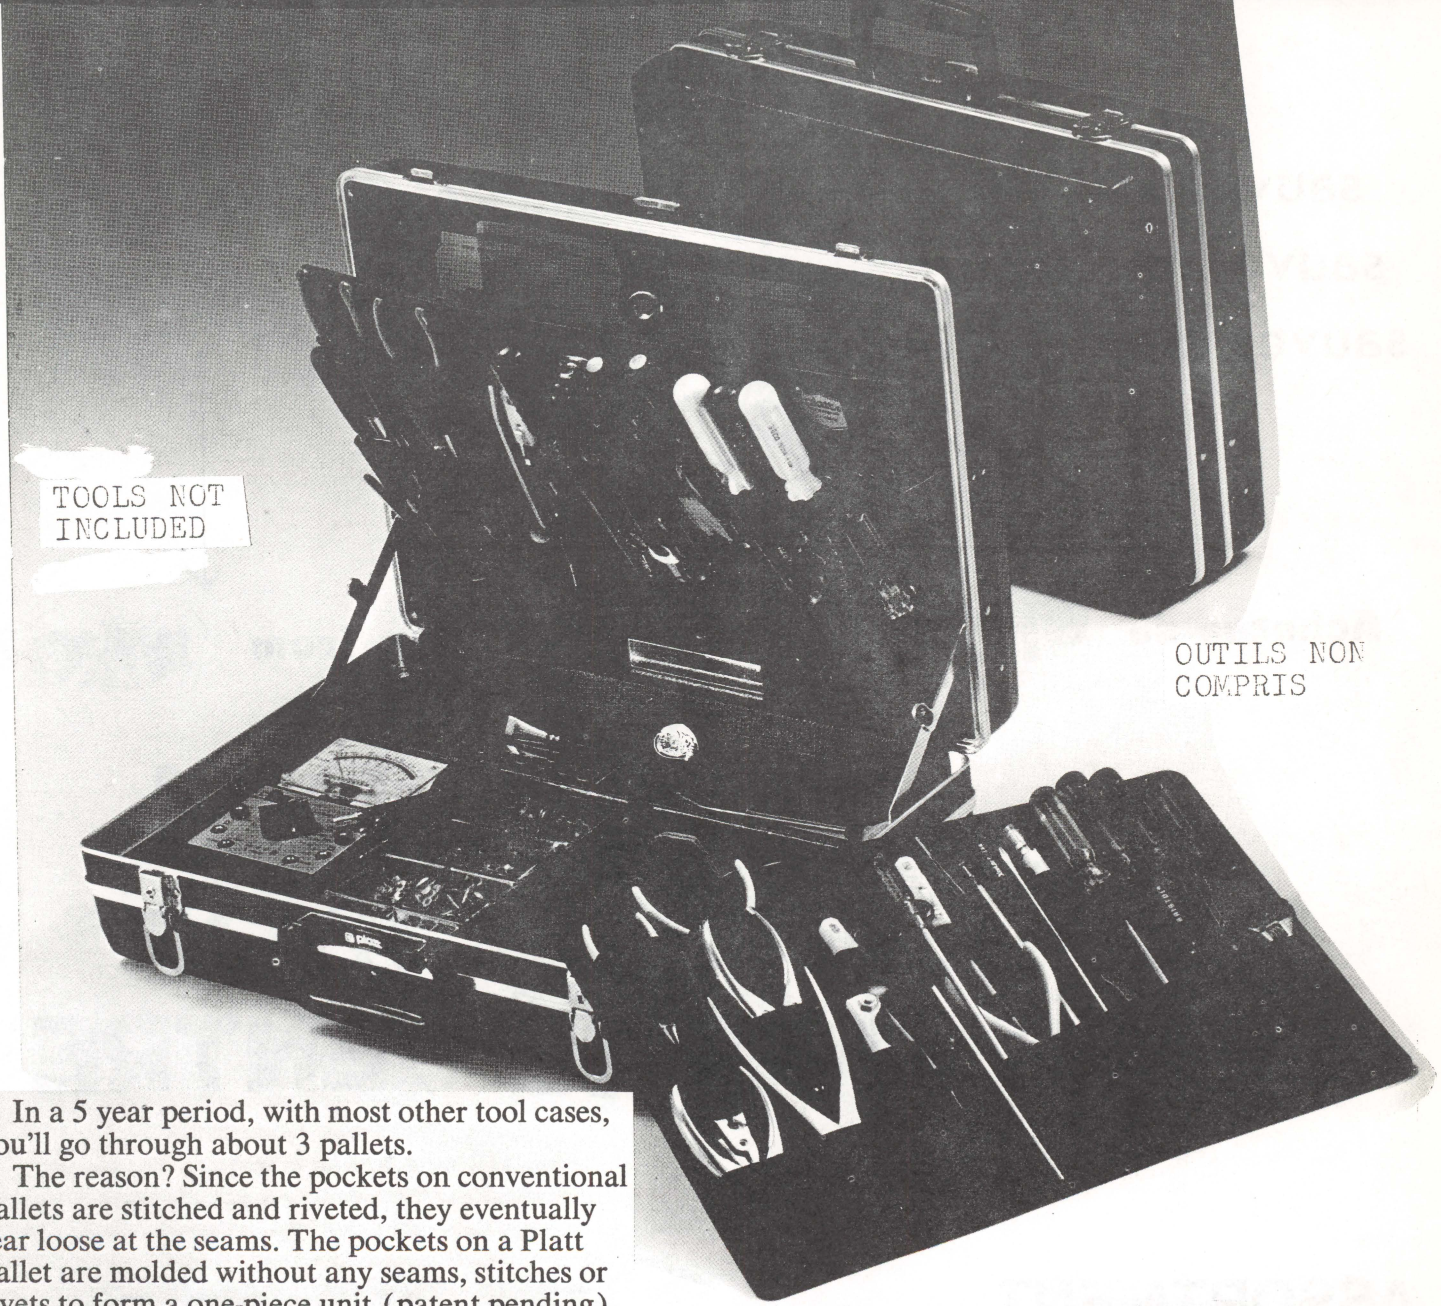
PLATT COULDN'T GIVE YOU AN UNCONDITIONAL 5-YEAR GUARANTEE IF THEY DIDN'T GIVE YOU A PRACTICALLY INDESTRUCTIBLE PALLET.



TOOLS NOT
INCLUDED

OUTILS NON
COMPRIS

In a 5 year period, with most other tool cases, you'll go through about 3 pallets.

The reason? Since the pockets on conventional pallets are stitched and riveted, they eventually tear loose at the seams. The pockets on a Platt pallet are molded without any seams, stitches or rivets to form a one-piece unit (patent pending). They are practically indestructible.

The cases also have that same rugged one-piece construction.

Our molded cases come in rugged, lightweight good looking ABS Thermoplastic in two sizes. 18½ x 13 x 6 (8¼ lbs.)

They have an aluminum rim for extra strength.

A heavy-duty, steel core handle.

And positive closure drawbolt key locks.

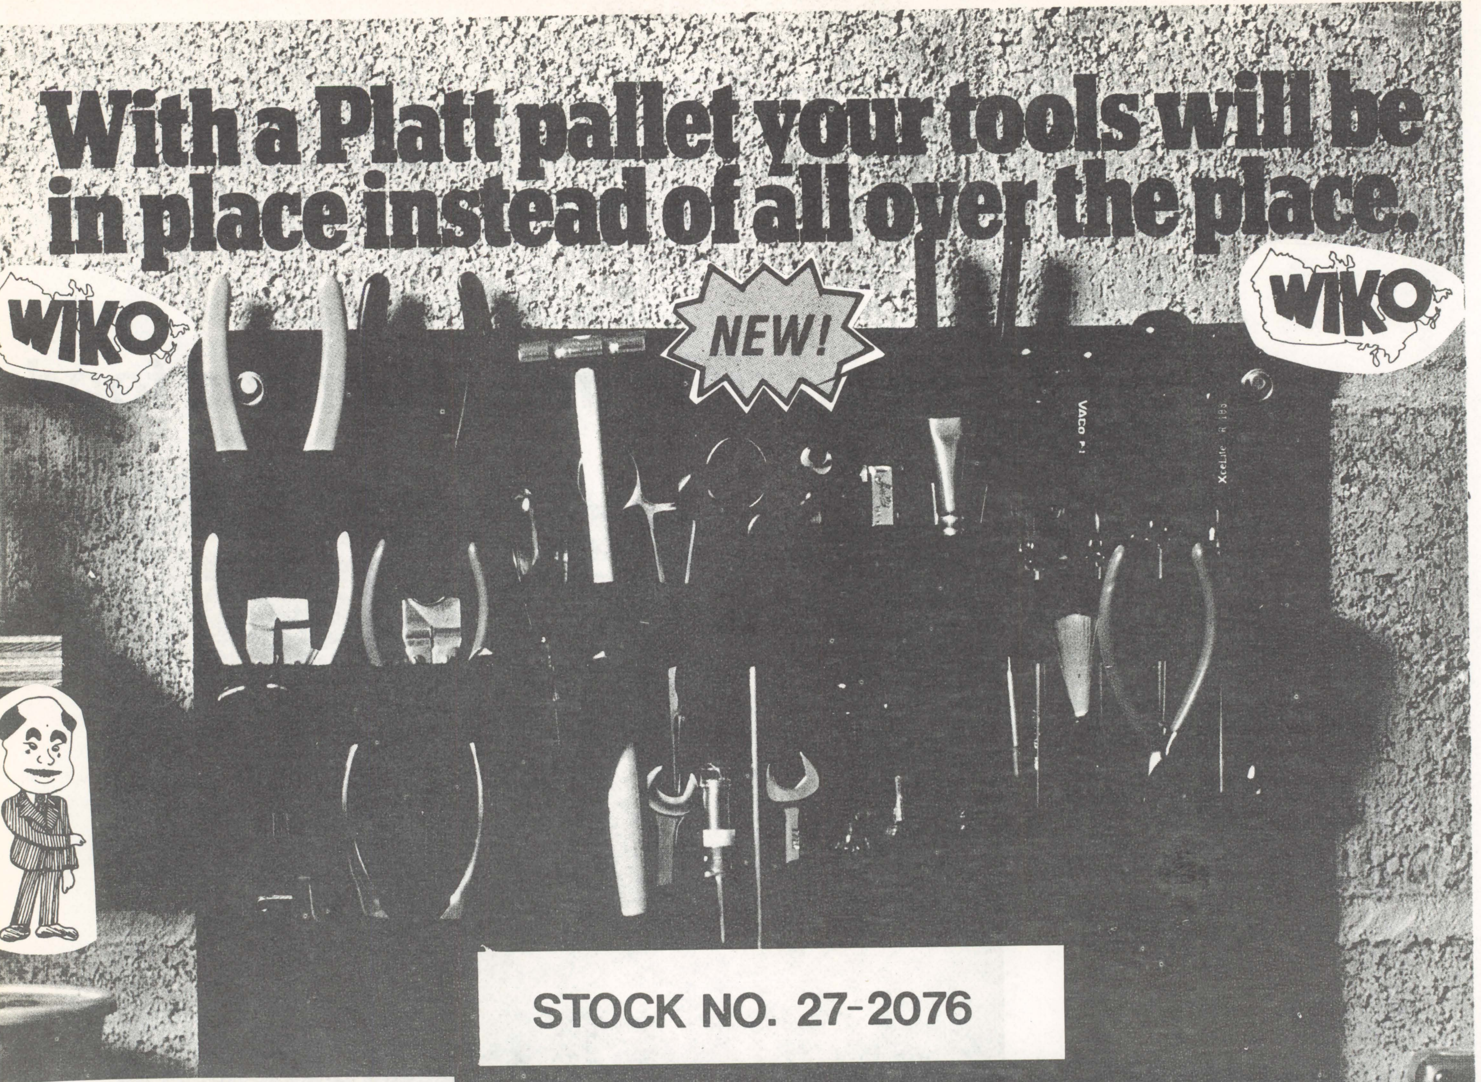
Ball bearing stays keep lid open with full load of tools.

Feet are molded into each corner of the panel to keep the case from getting scratched and to keep the case from scratching or maring customer's furniture.

Inside there are molded ABS compartments for extra tools and equipment and multiple lid pockets for papers and order books.

The 600T 18½ x 13 x 6 (8¼ lbs.) is extra deep and comes with two pallets. For the technician who needs a full compliment of tools and components. (Color black.)

STOCK NO. 27-2075



With a Platt pallet your tools will be in place instead of all over the place.
WIKO
NEW!
WIKO
STOCK NO. 27-2076

If your tools were in a Platt pallet instead of lying around your work bench or tool box they wouldn't be getting lost or dirty all the time. The Platt pallet is a great tool organizer.

There are individual pockets for all your tools (Tools are easy to find and easy to keep clean.)

Each tool pocket has an extra thick molded lip to take the wear and tear of constantly putting tools in an taking them out.

The pallet is made of Texin. An exceptionally tough urethane elastomer material that combines many of the best qualities of rubber, leather, metal and plastic in one rugged compound.

It's the same material used in the manufacturing of automobile bumper guards, football cleats, gears and snowmobile tracks.

Texin lets us mold this pallet into one strong, solid piece. No stitches, seams, flaps or rivets.

And the Platt pallet is easy to put up. It has two aluminum eyelets that can be hung conveniently on ordinary hooks, nails or screws.

One more-thing. The handy Platt pallet comes with a handy 5 year guarantee.

platt

G WAHL MODEL 7500 CORDLESS SOLDERING IRON KIT

The cord is gone from the soldering iron! Now you can enjoy complete working freedom on-location, anywhere . . . without the nuisance of stringing drop cords and hunting plugs.

The Wahl "Iso-Tip" cordless soldering iron is powered by long-life nickel cadmium batteries giving tip performance equivalent of up to 50 watts with over 700°F. tip temperature. Its low voltage and special isolated-tip construction eliminate electrical leakage and the need for grounding. Reduces risk of heat damage to sensitive components, too.

Pressing button gives you soldering heat in 5 seconds plus a built-in work light and pilot light. Unit is only 8″ long with tip, weighs just 6 oz. The "Iso-Tip" makes up to 125 electronic joints or more (depending on wire size) without recharging. It automatically recharges when replaced on its stand, fully recharges overnight and cannot over-charge.

Kit has Cordless Soldering Iron, Recharging Stand, 1 Fine Soldering Tip and Instruction Booklet. (12V DC Auto Charger Plug Assembly optional—available at additional charge, not included in kit).

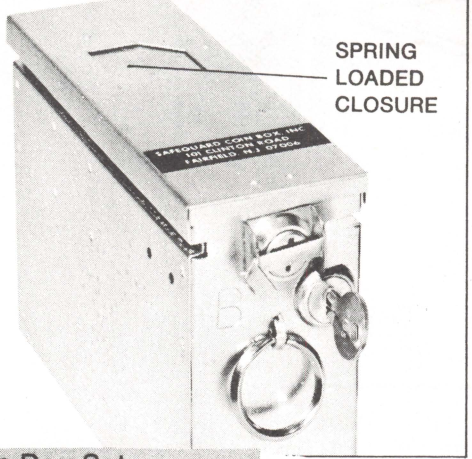
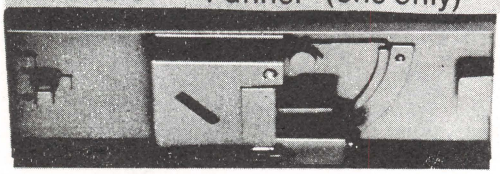
WIKO

BECAUSE . . . only QUALITY PRODUCTS are stocked; many are factory engineered specifically for your vending needs thereby REDUCING COSTLY MAINTENANCE and equipment breakdown.



Coin Box Set Includes applicable funnel, 2 self-locking boxes plus installation instructions and hardware.

Funnel (one only)



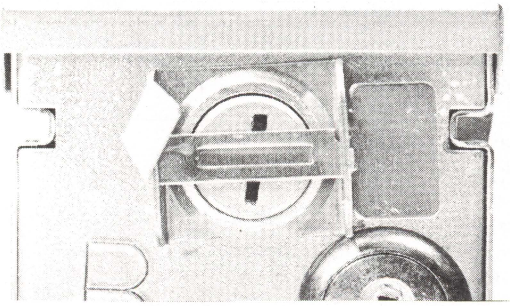
SELF-LOCKING CLOSURES ARE TAMPER-PROOF

Our new improved box goes to the route man in closed position, and opens when box is inserted into the machine. When the box is removed from the machine it closes and locks. If any tampering is attempted the box will not go into the machine. A device inside the box will indicate that tampering has been attempted.

TRIGGER DEVICES PRESET BY AUTHORIZED PERSONNEL

When the box is brought back from the machine by the route man to the counting room it is opened and coins are removed. The cover is reset with a single action and locked back on the box, ready to use again. When cover is being reset it is easy to see if indicator pin is in the improper or "cheat" position.

SPECIFY MACHINE MAKES AND MODEL NUMBERS WHEN ORDERING.



PATENTED SEAL STRIPS FOR ADDED SECURITY

SAFEGUARD coin boxes are supplied with brackets which permit the use of Seal Strips that may be used if additional security is required. These "Seal Strips" can be bent into position by hand . . . but, they will break if an attempt is made to remove them.

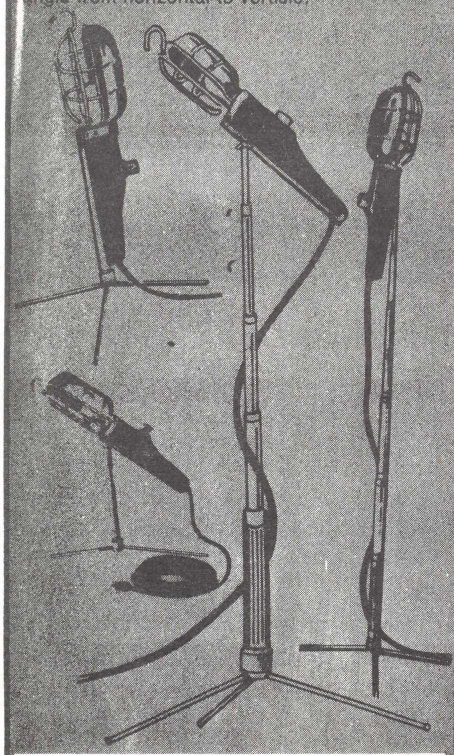
MEGA-LITE

THE TROUBLE-LITE WITH THE BUILT IN, COLLAPSIBLE STAND

EMERGENCY LITE

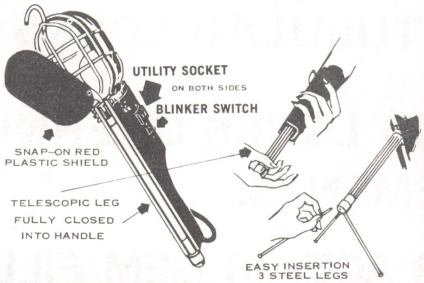
Adjusts to any height, from 20" to 55", at any angle from horizontal to verticle.



STOCK NO. 23-6216

THE 1ST AND ONLY *Truly Practical TROUBLE LITE*

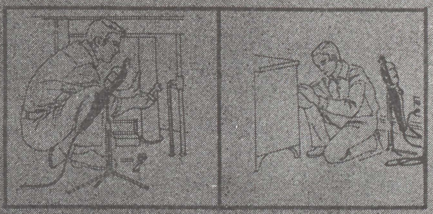
- ADJUSTS IN HEIGHT FROM 20" TO 5 FEET
- ROTATES A FULL 360°... AND
- ANY ANGLE TO UPSIDE DOWN
- OPERATES FROM 12 VOLT CAR SUPPLY OR ANY 110 OUTLET



UTILITY SOCKET ON BOTH SIDES
BLINKER SWITCH
SNAP–ON RED PLASTIC SHIELD
TELESCOPIC LEG FULLY CLOSED INTO HANDLE
EASY INSERTION 3 STEEL LEGS

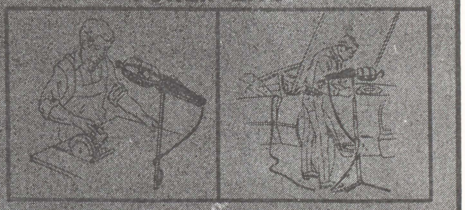
TELESCOPING LEG IN EIGHT SECTIONS DISAPPEARS INTO HANDLE OR EXTENDS FROM A MINIMUM OF HEIGHT OF 20" TO A MAXIMUM HEIGHT OF 55".

HANDY LITE



Repairs in awkward places are easier when you can see what you are doing.

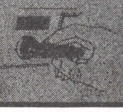
POWER LITE



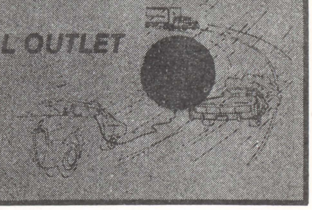
Providing plenty of light anytime, anywhere — right from any 110v outlet or the cigarette lighter on your cars dashboard, at any angle.

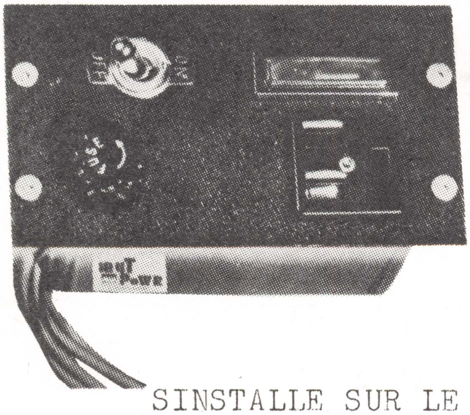
WARNING LITE, ***just snap on the transparent red mask, made of rugged plastic, it snaps in place over light shield in a moment.*** **Blinking to signal your presence to oncoming traffic, from 25' away with the cord plugged into your car's lighter outlet.**

AS NEAR AS YOUR CAR DASHBOARD • OR WALL OUTLET



Adapter plug inserts into your car's lighter, enabling you to use Mega-Lite with any 12v bulb for emergency use on the road, and on the road repairs. 25' cord, enough to reach all around or place at safe distance from your car to warn oncoming traffic of your presence.





110 VOLT INSTANTANE 3000 WATTS

INSTANT 110V ELECTRICITY

Will provide a maximum of 3,000 watts of power from your auto, truck, tractor, stationary engine, or from any other engine using an alternator.
Protected by built-in heavy duty fuse. Large indicator neon light indicates 110V available. Easily mounts on dash or instrument panel or anywhere else with two screws. Full instructions for operating and installation included. Can also be used to charge batteries in three to five minutes. Provides 110V to operate drills, portable saws, lights, heaters, impact wrenches or any item using a brush type motor.

SINSTALLE SUR LE PANEAU BORD DE VOTRE AUTO OU CAMION

SAFE TO USE, WILL NOT DAMAGE ALTERNATOR, VOLTAGE REGULATOR, OR WIRING

THANKS TO MYT-POWER YOU CAN NOW HAVE INSTANT 110 VOLT POWER WHEREVER YOU MAY BE. NO NEED TO DEPEND UPON POWER LINES AND OTHER POWER SOURCES. YOU CAN STILL OPERATE HAND TOOLS, SUCH AS DRILLS, POWER SAWS, ELECTRIC LIGHTS OR ANYTHING ELSE WITH 110-120 VOLT AC-DC MOTOR. IDEAL FOR MOUNTING IN YOUR SERVICE TRUCK. • MOUNTS ON DASH OR UNDER HOOD • COMPACT IN SIZE 4½x2½x2¾" • WEIGHS ONLY 12-OZ. • ALL HARDWARE AND CONNECTORS SUPPLIED • PANEL FINISHED IN AN ATTRACTIVE BLACK BAKED WRINKLE FINISH • HANDSOMELY AND ATTRACTIVELY DESIGNED TO ENHANCE ITS APPEARANCE WHEN MOUNTED ON ANY DASHBOARD • EASILY INSTALLED IN FIFTEEN MINUTES

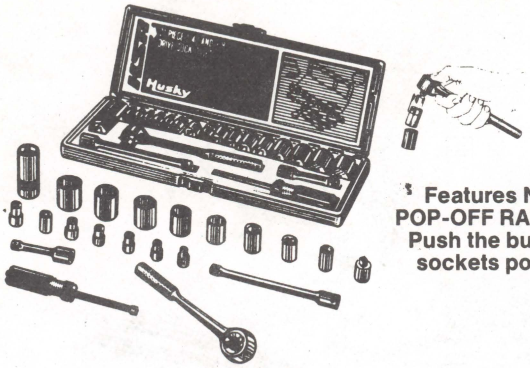
SOCKET SETS SCREWDRIVERS

HUSKY 21 PIECE ¼" AND ⅜" DRIVE SOCKET SET



Features NEW POP-OFF RATCHET
Push the button—sockets pop off!

Husky's Kwik Socket Release (KSR) makes changing sockets as easy as touching a button. The unique patented ejector system allows even tight or greasy sockets to slip on or off without pushing or tugging. And the KSR has a built in spinner for fast run up of nuts and bolts.

Featuring 45 tooth heavy duty design, Husky's KSR Ratchet is fully enclosed to keep dirt out. Its triple plated chrome finish assures long life.

21 Piece ¼" and ⅜" Drive Socket Set. Includes KSR Reversible Ratchet, ⅜" to ¼" Reducing Adapter, 3" and 6" Extensions, Spinner, five ⅜" drive 6 pt. Sockets, ⅜" thru 9⁄16" and 13⁄16" Spark Plug Socket; five ⅜" drive 12 pt. Sockets, ⅝" thru ⅞"; six ¼" drive 6 pt. Sockets, 3⁄16" thru 11⁄32" and rugged plastic tool box.

G. SWITCH COVERS WITH LOCK
(Single or double tube and single or double switch). Slip it on, lock it and forget it! This extra heavy gauge, cadmium plated steel cover provides real protection from brute strength. It prevents anyone from tripping the payout switch and stealing money left in coin tubes. Available with locks keyed alike or keyed different *(locks are not within protected or registered series).* If you specify Ace lock, add $2.00 to price of each unit, if a Duo lock, add $1.50 to unit price.

EXHAUST MOTOR

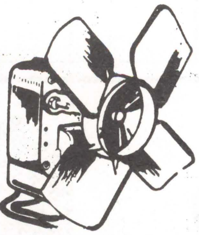
115 Volt, 60 Cycle. Rotation: clockwise facing shaft. Shaft: ⅛″ diameter, ⅞″ long. Mounting Centers: 1⅞″.

Replacement for: **Avenco** Coffee Machines; Model "D".

No.	Each	L/12 ea.	L/24 ea.
45-6849			

EXHAUST MOTOR

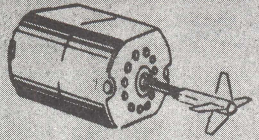


Complete with 4″ plastic fan and mounting bolts. 115 Volt, 60 Cycle, 2800 RPM. Rotation: clockwise facing shaft. Mounting Centers: 1⅞″.

Replacement for: **Coffee-Mat** Single Cup Coffee Machines; DSC-600 and SSC-600.

No.	Each	L/12 ea.	L/24 ea.	L/48 ea.
45-6818				

CHOCOLATE WHIPPER MOTORS

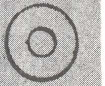


With Impeller blade. 115 Volt, 60 Cycle, 7000 RPM. Rotation: counter-clockwise facing shaft. Mounting Centers: $2\frac{11}{32}$″

Replacement for: **Vendo** Coffee Machines; HBA and HBC Series. All Models.

Shaft Diameter and Length	No.	Each	L/12 ea.
¼″x$2\frac{9}{16}$″	**60-1002**		
¼″x$3\frac{5}{32}$″	**60-1003**		

SLINGER WASHER

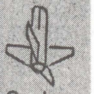


For Chocolate Whipper Motor.

Replacement for: **Vendo** Coffee Machines; HBA and HBC Series. All models.

No.	Per 10	Per 50
60-4205		

IMPELLER BLADE

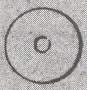


For Chocolate Whipper Motor.

Replacement for: **Vendo** Coffee Machines; HBA and HBC Series. All models.

No. 60-1004......................... Each

RUBBER SEAL

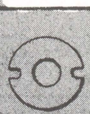


For Chocolate Whipper Motor. With $2\frac{9}{16}$″ Shaft.

Replacement for: **Vendo** Coffee Machines; HBA and HBC Series. All Models.

No.	Per 10	Per 50
60-4206		

RUBBER PAD

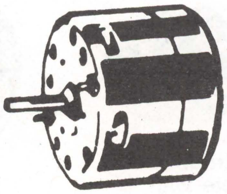


For Chocolate Whipper Motor with $3\frac{5}{32}$″ shaft.

Replacement for: **Vendo** Coffee Machines; HBA and HBC Series. All models.

No.	Per 10	Per 50
60-4209		

HEAT CIRCULATING FAN MOTOR (INTERNAL FAN)

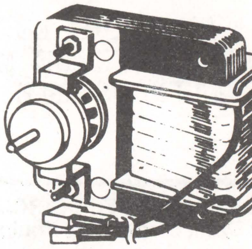


115 Volt, 60 Cycle, 1550 RPM. Rotation: counter-clockwise facing shaft. Shaft: ¼″ dia. x 1¼″. Mounting Centers: $2\frac{27}{32}$″.

Replacement for: **Rock-Ola** Coffee Machines; 1404 and 1404S. **Vendo** Hot Canned Food Machine.

No.	Each	L/6 ea.	L/12 ea.	L/24 ea.	L/48 ea.
45-6845					

EXHAUST BLOWER MOTOR

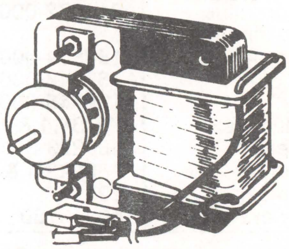


115 Volt, 60 Cycle, 3000 RPM. Rotation: clockwise facing shaft. Shaft: $\frac{3}{16}$″ diameter, ¾″ long. Mounting Centers: 1⅞″.

Replacement for: **Coffee-Mat** Single Cup Coffee Machines; DSC-600 and SSC-600.

No.	Each	L/12 ea.	L/24 ea.	L/48 ea.
45-6847				

MOTOR FOR COFFEE HEAT BOX

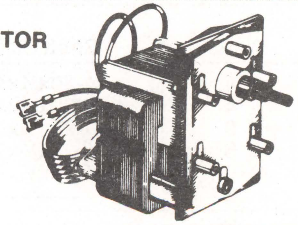


115 Volt, 60 Cycle, 3000 RPM. Rotation: clockwise facing shaft. Shaft: $\frac{3}{16}$″ diameter, ¾″ long. Mounting Centers: 1⅞″.

Replacement for: **Rock-Ola** Batch Brew Coffee Machines; TRLB and TRLB-M.

No.	Each	L/6 ea.	L/12 ea.
45-6848			

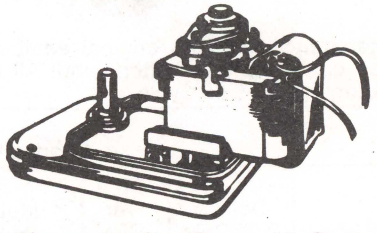
DRIVE MOTOR



Replacement for: **Rowe** Cigarette Machines; Models 20/700, 20/800, 526 and 528.

No.	Each	L/6 ea.	L/12 ea.	L/24 ea.
60-0339				

TRANSPORT MOTOR



Replacement for: **Rowe** All Purpose Merchandiser; 147.

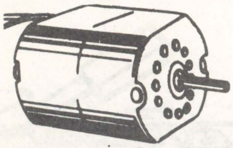
No.	Each	L/3 ea.	L/6 ea.
60-0380			

MOTOR SPECIALS

If motor you require is not listed, send full details: (or send sample)

1. Name & model of machine.
2. Description of motor.
3. Position of motor on machine.

CHOCOLATE WHIPPER MOTOR



115 Volt, 60 Cycle. Special stainless steel shaft ¼'' diameter x 1⅝''. Mounting Centers: $2\frac{11}{32}$''.

Replacement for: **Rock-Ola** Coffee Machines; TRLB, TRLB-M, 1404 and 1404S. **Rowe** Hot Drink Machines; 212, 214, AK-7, AK-8, SK-8 and SK-9. **Seeburg-Bally** Coffee Machines; 660 to 664. **Seeburg** Hot Drink Machines; 5C5 to 5C7, 6C5 to 6C7, 7C5 and 7C7. **Vendomatic** Hot Drink. **Rudd-Melikian** Hot Drink.

No.	Each	L/12 ea.	L/24 ea.	L/48 ea.

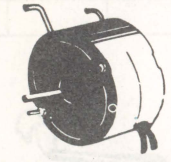
EXHAUST BLOWER MOTOR

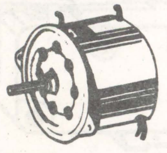


115 Volt, 60 Cycle, 3000 RPM. Rotation: counter-clockwise facing shaft. Shaft ¼'' diameter x 1¼''. Mounting Centers: $2\frac{13}{16}$''. Extended oilers.

Replacement for: **Seeburg-Bally** Coffee Machines: 660 to 664. **Vendo** Coffee Machines; HBA and HBC Series.

No.	Each	L/12 ea.	L/24 ea.	L/48 ea.
60-9801				

EXHAUST BLOWER MOTOR

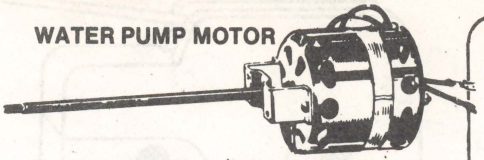


115 Volt, 60 Cycle. Special Flange Mounting with 3⅞'' centers. Rotation: counter-clockwise facing shaft. Shaft: ¼'' diameter x 1¼''. Extended oilers.

Replacement for: **Seeburg-Bally** Coffee Machines; 660 to 664. **Seeburg** Hot Drink Machines; 5C5 to 5C7, 6C5 to 6C7, 7C5 and 7C7.

No.	Each	L/12 ea.	L/24 ea.	L/48 ea.
45-7033				

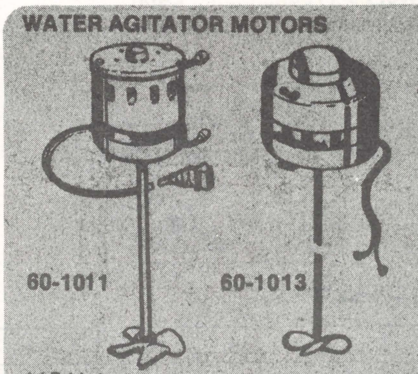
WATER PUMP MOTOR



Replacement for: **Rowe** Hot Drink Machines; 212 and 214.

No.	Each	L/6 ea.	L/12 ea.
45-6855			

WATER AGITATOR MOTORS



115 Volt, 60 Cycle. Special internal fan cooling design. Special stainless steel shaft. Extended oilers for safe lubrication. Mounting Centers: $2\frac{27}{32}$''.

Replacement for: **Seeburg** Cold Drink Machines; 4SCD, 7SCD, 4S3 to 4S5 and 7S3 to 7S5.

Rotation: clockwise facing shaft. Shaft: ¼'' diameter x 7''.

No.	Each	L/6 ea.	L/12 ea.
60-1011			

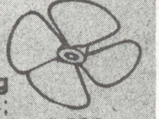
(Agitator Impellers not included in motor price)

Replacement for: **Rowe** Cold Drink Machines; L1010A and L1020A.

Rotation: counter-clockwise facing shaft. Shaft: ¼'' diameter x 8¼''.

No.	Each	L/6 ea.	L/12 ea.
60-1013			

(Agitator Impellers not included in motor price)

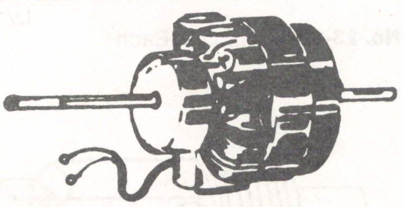


IMPELLER BLADE
For Water Agitator Motor.

Replacement for: **Seeburg** Cold Drink Machines; 4SCD, 7SCD, 4S3 to 4S5 and 7S3 to 7S5. **Rowe** Cold Drink Machines; L1010A and L1020A.

No.	Each	L/6 ea.	L/12 ea.
60-1016			

CIRCULATING FAN MOTOR

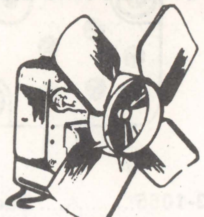


With double shaft. 115 Volt, 60 Cycle, 1750 RPM. Rotation: counter-clockwise facing long shaft. Shaft: $\frac{5}{16}$'' diameter x $1\frac{3}{16}$'' (short side) 3⅝'' (long side).

Replacement for: **Ideal** Cold Drink.

No.	Each	L/6 ea.	L/12 ea.
45-6844			

EXHAUST AND CIRCULATING MOTOR

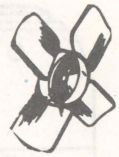


Complete with 4'' plastic fan and mounting bolts. 115 Volt, 60 Cycle, 2800 RPM. Rotation: clockwise facing shaft. Mounting Centers: 1⅞''.

Replacement for: **Automatic Products. Candyshop** 100 and **Pastryshop** 300. **Rowe** Hot Drink Machines; 212, 214 and SK9. **Seeburg-Bally** Coffee Machines: 660 to 664. **Vendo** Coffee Single Cup.

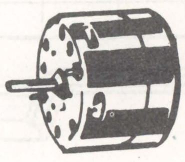
No.	Each	L/12 ea.	L/24 ea.	L/48 ea.
45-6815				

PLASTIC FAN BLADE
For Evaporator Fan Motor #60-0368 & Blower Motor #45-6815.



No.	Each	L/6 ea.	L/12 ea.
60-1019			

GENERAL PURPOSE VENDING MOTOR



Fan cooled. 115 Volt, 60 Cycle, 1500 RPM. Rotation: clockwise or counter-clockwise facing shaft. Shaft: ¼'' diameter x 1⅝''. Mounting Centers: $2\frac{15}{16}$''.

Replacement for: **Vendo** Coffee Machines; VCV900 and VCV900E. (No. 45-6843). General Purpose Motor (No. 45-6843).

Clockwise rotation

No.	Each	L/6 ea.	L/12 ea.

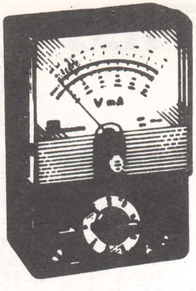
MULTITESTER
1000 Ohm/Volt Meter
11-Range Pocket Multitester—One of the finest small size at any price! Meter protected from accidental overload or burnout. Zero needle adjustment. Two-color scale with clear acrylic faceplate. High impact plastic range selector switch. Complete with test leads and prods.

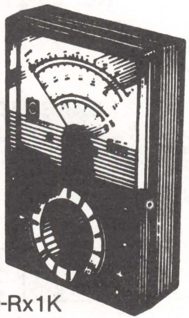


Specifications:

Sensitivity:	1,000 Ohm/Volt AC/DC	DC Current:	0-1mA-100mA
DC Volt:	1-10-50-250-1000	Ohm:	100 K (3K at center scale)
AC Volt:	1-10-50-250-1000	Size:	3¾"H, 2⅜"W, 1¼"D

No. 27-5115 . . . . ea.

MULTITESTER
20,000 Ohm/Volt Meter
16-Range Multitester—Universal, small, in modern rectangular styling! Solid State circuitry protects against meter overload or burnout. Jewelled movement. Indicator needle adjustment. 2-color faceplate large size for easy reading. Plug-in test leads and prods included.

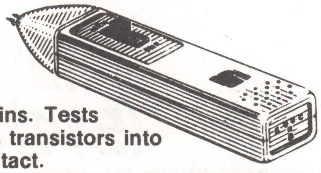


Specifications:

Sensitivity:	20,000 Ohm/Volt DC 10,000 Ohm/Volt AC	Ohm:	Rx1-Rx100-Rx1K
		Decibels:	−20 to +37 db (2 ranges)
DC Volt:	0.3-3-12-60-120-600		
AC Volt:	12-60-120-600	Capacitance:	250pf to 0.02MF
DC Cur.:	60mA-3mA-300mA	Size:	4¾"H, 3⅜"W, 1½"D

No. 27-5117 . . . . ea.

NEW TRANSISTOR TESTER



Movable base Pin—Tester will conform to TO-5, TO-18 and small "in line" leads. Extender cables—may be used in conjunction with nose pins. Tests transistors in or out of circuit. Places transistors into actual operation, operates upon contact.
9 volt battery included.

A complete electronic tester. No additional equipment required. Designed to reach into small areas. Maximum voltage applied to the base-emitter junction by tester is 0.8 volts.

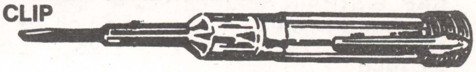
TO OPERATE—Set the selector switch to NPN or PNP. Place the contacts of the tester in the correct position on the printed circuit board. The tester will emit a tone indicating that the transistor under test is a functioning unit. The absence of a tone indicates a shorted or open transistor. Setting the selector switch to the wrong position will cause no harm to your circuit.

TRANSISTOR TESTER complete with plug-in extender cable.
No. 27-5032. . . . . ea.

OPTIONAL PLUG-IN CONTINUITY/DIODE TESTING ADAPTER (not shown)
No. 27-5033. . . . . ea.

ELECTRICAL TESTERS

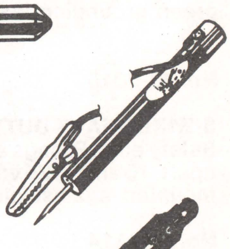
VACO CIRCUIT TESTER SCREWDRIVER WITH POCKET CLIP



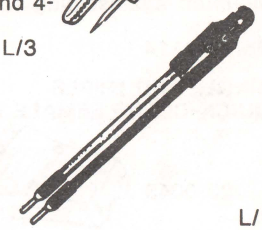
For use on 100-500 volts. Indispensable tool for work with electrical circuits. 100% safe, fully insulated handle and blade, plastic pocket clip. Just put tip into socket, touching button on handle. Light indicates "hot" side. 4½" overall. Fuse and light included.
L/3
No. 27-0104 . . . . ea.

REPLACEMENT BULB
For Vaco Circuit Tester
No. 27-0157 . . . . ea.

ELECTRICAL CIRCUIT TESTER
Tests circuit continuity with power off. Tests switches, fuses, locates ground wires! Self-powered, complete with 2 penlite batteries, No. 14 lamp and 4-foot test lead.
L/3
No. 23-2040 . . . . ea.



ELECTRICAL TESTER
With Pocket Clip
Tests 90 to 600 Volts—Indicates AC or DC current. Detects live and grounded wires.
L/12
No. 23-2037 . . . . ea.



"CAPPY" POCKET-SIZE CAPACITOR TESTER
For testing capacitors, diodes, rectifiers, condensers, resistors and fuses. A "must" for every serviceman's kit! Cappy Tester is complete with line cord and alligator test clips. For 115-Volt outlets. Provides quick, simple and Accurate tests on all the above—as well as motor Insulation leakage tests!
No. 27-5041 . . . ea.

AC VOLTAGE TESTER
Accurately checks line voltage and eliminates burnout of bulbs, coils, etc. Precision mechanism. Plug-in type with damped meter movement. Convenient 90° swivel prongs provide easy reading from any position!

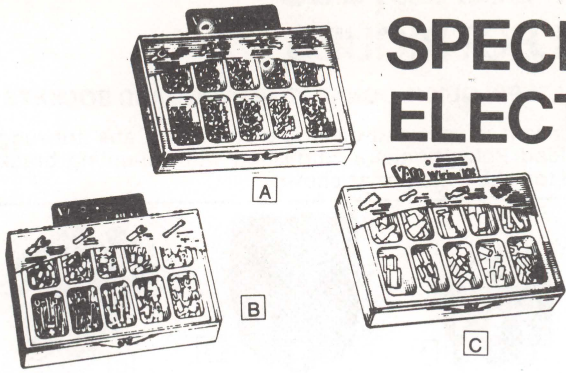
VACO TERMINALS IN HANDY "CONNECT-ALL" KITS

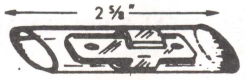


A **NO. 1398 CONNECT-ALL KIT** contains selection of 10 most universally required single-grip terminals for on-the-spot repair.
No. 23-3060 . . . . ea.

B **NO. 2398 CONNECT-ALL KIT** contains selection of the most popular insulated single-grip terminals in 10 different styles and sizes.
No. 23-3061 . . . . ea.

C **NO. 4398 CONNECT-ALL KIT** contains 10 popular styles of automotive and appliance quick connectors and insulators to replace original wiring.
No. 23-3062 . . . . ea.

LINE SPLICE CONNECTOR



With two 1/4" male tabs encased in plastic tube.

Per 10 Per 100

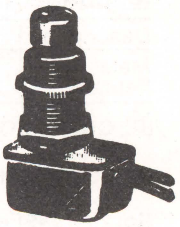
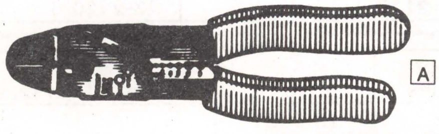
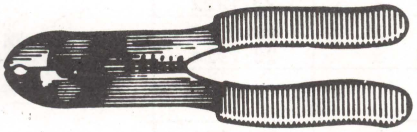
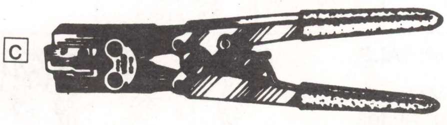
MOMENTARY PUSH SWITCH



A ruggedly built normally "Off," momentarily "On" push button switch enclosed in a bakelite case measuring 1/2" wide and 15/16" long. Standard 15/32" threaded stem 9/16" long. Soldering lugs. Rated at 3 amps, 125 volts AC. Mounting nuts included.
Single Pole–Single Throw
No. 23-1001 . . . . ea.







VACO®

A **NO. 1963 CRIMPING TOOL WITH PATENTED BOLT SLICER** cuts and strips wire 22 to 10 gauge and crimps both insulated and non-insulated terminals. Wire cutter at the tip of tool facilitates cutting in cramped spaces. New, advanced design bolt slicer accommodates six sizes of bolts.
No. 27-0103 . . . . ea.

B **NO. 1900 CRIMPED TOOL WITH BOLT CUTTER** cuts and strips wire from 22 to 10 gauge, crimps non-insulated solderless terminals, and cuts 5 sizes of bolts (4-40, 6-32, 8-32, 10-24 and 10-32). Plastic comfort grip handles.
No. 27-0344 . . . . ea.

C **NO. T-1710 COMPOUND ACTION CRIMPING TOOL** features patented Star-Cone crimping configuration for perfect solderless terminations every time of all terminals 22-10 gauge AWG. Has built-in ratchet, safety release and terminal locator.
No. 27-0347 . . . . ea.

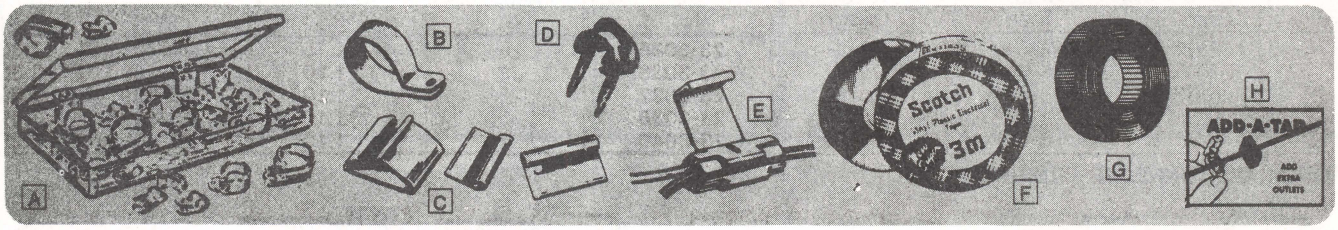
ELECTRICAL SPECIALITIES



A CABLE CLAMP KIT

All Popular Sizes In A Handy Box!
Approximately 100 clamps in assorted sizes from 1/8″ to 1/4″ I.D. Most are Ethyl Cellulose plastic, with a few in rubberized metal. Excellent for hanging cables, wires, etc. The handy see-thru plastic case is hinged, snap-shut type, rugged material, compact and easy to carry!
No. 23-3496 . . . . Per kit,

B ETHYL CELLULOSE PLASTIC CLAMPS

Tough, resilient, durable, and lightweight, these economically priced Ethyl Cellulose plastic clamps are chemical resistant, have excellent shock resistant qualities, and withstand temperature variations from −60°F. to 300°F. Packed 25 per bag. (Material thickness: 0.063″)

Packed 5 Per Tin—20 Tins Per Box of 100

TYPE "S" FUSTATS

Fustats are a dual-element, slow-blowing type fuse. Superior to ordinary fuses for circuit protection because they resist tampering and prevent using over-size fuses. Assures that safe protection remains safe. Sizes up to 14 amps. provide burnout protection for motors of 12 volts of less. Packed 4 per box.

Amps	No.	Each	L/12

SLOW-BLOW FUSETRON MDL FUSES

These Fusetron fuses are a dual-element, slow blowing type which prevent needless blows and shut-downs. They will not blow when motors start or on other harmless overloads—because of a thermal cutout which functions on low overloads yet give full protection from dangerous overloads or short circuits through operation of a fuse link. Packed 5 per container, 20 containers per box.

Packed 4 per box.

PANEL MOUNTED FUSEHOLDER

Type HKP for 1/4" fuses.

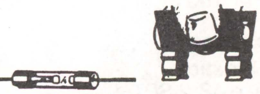
Bayonet type knob grips fuse tightly and pulls it from holder when knob is removed. Can be used on panels up to 5/16" thick. Side terminal is held mechanically as well as by solder.

L/10

No.22-0380 . . . . ea.

INSULATED TWIN-CLIPS

For 1/4" Fuses



Makes it easy to replace blown Pig-Tail Fuses without cutting or unsoldering Pig-Tails. Just snap Twin-Clips on blown fuse and insert ordinary or Fusetron fuse of same amperage as the blown fuse. Strong spring clip pressure assures good contact. Simplifies fuse stocking problems by permitting use of standard fuses.

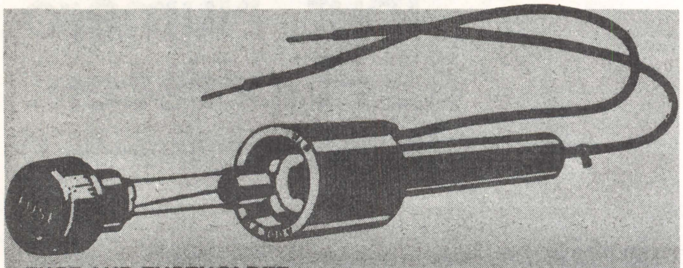
No. 22-0445 . . . .

FUSES AND FUSEHOLDERS



FUSE AND FUSEHOLDER

Only the proper fuse can be used with fuseholder. Prevents replacement mistakes and assures protection for equipment operating on 300 volts or less. The fuseholder can be installed in-line or panel-mounted. Furnished with 6″ leads of No. 18 solid copper wire with high temperature insulation.

MATCHED FUSES AND FUSEHOLDERS

Matched sets of Fusetron fuses and fuseholders safe-guard against use of wrong size and type of fuse. Ears on fuses match slots in holders. Fusetron Type N fuses are slow-blowing type glass tube fuses for use where harmless surges or starting currents might cause ordinary fuses to open needlessly.

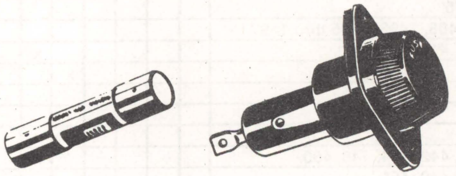
✱



PANEL MOUNTED FUSEHOLDERS AND FUSES

Screw type knob with strong coil spring provides contact pressure on ends of fuse. Due to special design, vibration will not cause failure of terminals. FNM Type Fusetrons are dual-element, slow-blowing, fiber tube fuses. Fuses avoid needless blows from starting currents or surges.

RAINBOW COLOR CYLINDERS
For Fluorescents. Transparent Colored Plastic in your choice of colors. Now, change the color of your fluorescents in just seconds, without removing the tube from its fixtures. WICO's color cylinders are sturdy plastic tightly curled. No clips or adhesives are needed. The cylinders snap around 1″ or 1½″ diameter fluorescent tubes. Why stock expensive Color Fluorescent Tubes? With Rainbow Cylinders you can have the color you want, or change colors frequently. No need to worry about the availability of Color Fluorescents when you need replacements! Our Color Cylinders can be reused time after time!

PADLOCKS

A ABUS STEEL WELDED PADLOCK

No exposed rivets–steel discs are welded into one-piece 2¼″ case. No space to jimmy–extra small (1¹⁄₁₆″ x ¾″) shackle opening sees to that. Resists up to 8400 lbs. of jimmy pressure. Practically invulnerable shackle (¹³⁄₃₂″)–double and very strongly bolted by cylinder cam plus additional anti-shock power bolt. Case-hardened chrome-plated shackle.
Hi-precision extruded Brass Cylinder–with 4 mushroom shaped pick-resistant brass pins, bronze springs, each lock with two paracentric nickel-plated brass keys. Exceptional great number of genuine key changes. Finish: Chromed and polished body and shackle. Perfect finish and protection for outdoor use. All inner steel parts are galvanized, rustproofed.
Case diameter: 2¾″
Shackle diameter: ¹³⁄₃₂″
Shackle clearances:
1¹⁄₁₆″ vertical
¾″ horizontal
Weight: 8 Lbs. per 12
Individually boxed, 6 per carton
Ideal for all types of coin-operated equipment, vehicles or any installation calling for a tough padlock or locking hasps.

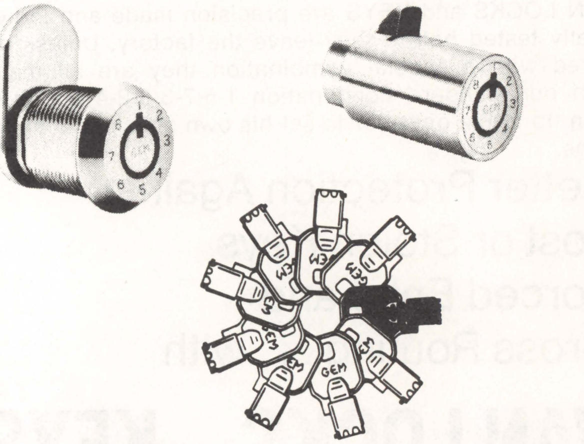
GEMATIC

The Instant Key Change Lock High Security, 8-Pin Tumbler Operation!



Now owners can change the combination of installed locks themselves, right on location, as many as 8 times—easily, and without security loss. **Just insert CHANGE KEY** and rotate to new position—a click is heard and lock is thus programmed to a new combination requiring a new key. Keys can be ordered for 8 combinations—all different. Combinations can be reprogrammed to any of the original setings and can be used over and over.

Any number of regular operating keys may be ordered, from 2 to 8 for each lock. Thousands of combinations available. Change combinations in seconds, on location. **Change key will not unlock unit** during combination change or at any other time. Locks are furnished in bright nickel finish, 90° right turn to unlock, and the cam of your choice.

▶ **GEMATIC** locks are priced less keys. Keys must be ordered separately.

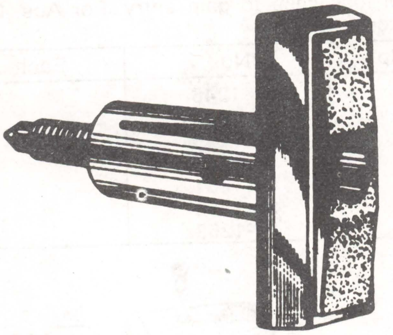
NOW AVAILABLE FROM WIKO

Universal Recessed T-Handle Lock Parts

BY CHICAGO LOCK CO.



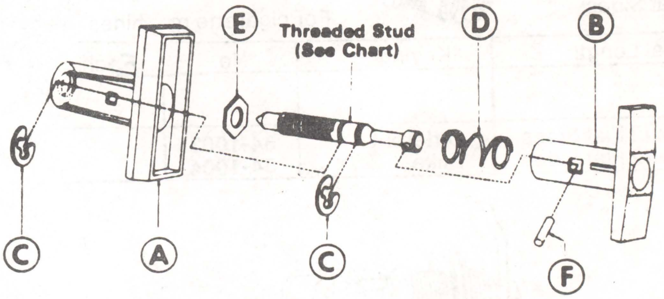


FIG.	DESCRIPTION	NO.	EACH	Ea. L/6	Ea. L/12
A	T-Flange only	34-1815			
B	T-Handle only	34-1816			
C	"E" Ring only	34-1817	(Min. 10)		
D	Pop-out Spring only (2 rqd. per T-handle)	34-1818	(Min. 10)		
E	Hex Washer only	34-1834	(Min. 10)		
F	Roll Pin only (.640 x 5/32)	34-1835	(Min. 10)		

Will accept all standard Ace, Ace Change-Matic and Flex-Ace inner cylinders, plus Abloy, Duo, Gem and Medeco standard inner cylinders.

New design allows inner cylinder to remain flush or below the handle surface. This keeps the face of the lock out-of-reach of various tools which could be used in attempts at vandalism.

Flange is polished chrome finish, T-handle is matte chrome finish.

F DOOR ALARM SWITCH ASSEMBLY For Trucks or Vans with Sliding Doors

- Wico's new Door Alarm Switch eliminates broken switches and continuous adjustment on misalignment, etc.
- New design features a "Rocker Type Principle" and Nylon Roller Actuator.
- Basic switch never comes in contact with vehicle door and thus there is no unusual stress or strain on switch.
- No amount of door slamming will affect or cause damage to switch assembly.

Instructions and mounting hardware included!
A set consists of one each Righthand-and Lefthand Door Switch Assemblies.

ANTI-THEFT ALARMS

A WICO COIN-VEND MACHINE ALARM KIT

With long-life heavy duty 12-volt batteries! A self-contained, tested and proved burglar alarm made special for vending and other coin-operated machines!

- Any force applied to door activates ringing bell which can be heard over 400 yards away. If door is not actually opened, alarm will ring from 1 to 3 minutes, then reset itself automatically and be ready for future break-in attempts.
- If door is fully opened, alarm will ring for duration of battery or until you reset it.

Alarm kit consists of bell dome assembly with relay, door switch, lock switch and keys, long-life heavy duty battery and simple instructions for installation.

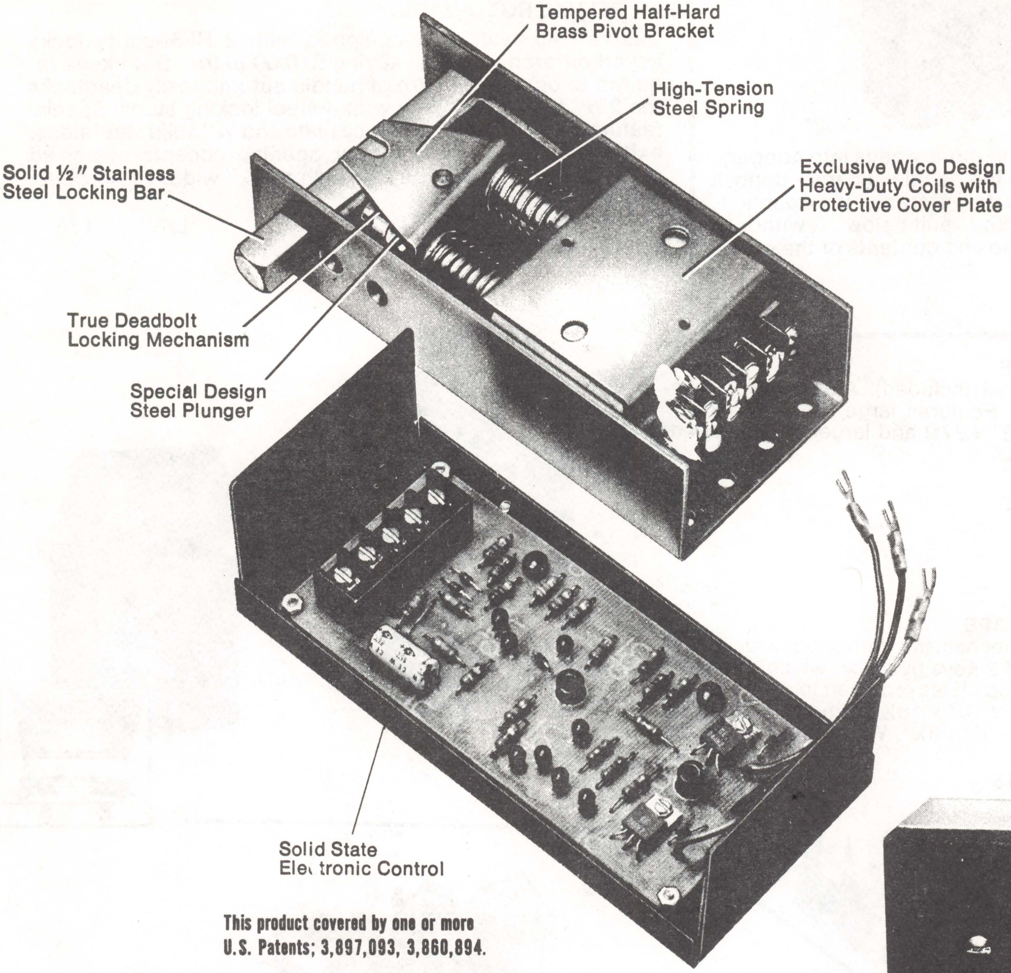
SELF-LOCKING DEADBOLT

rcv
residential/commercial/vehicle
PROTECTION

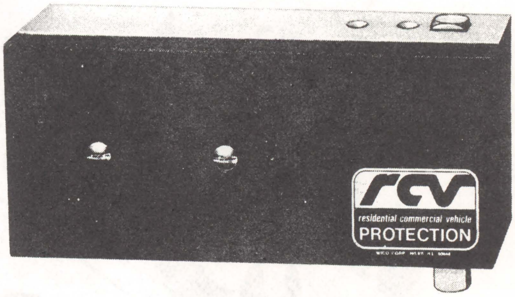


Tempered Half-Hard Brass Pivot Bracket
High-Tension Steel Spring
Exclusive Wico Design Heavy-Duty Coils with Protective Cover Plate
Solid ½″ Stainless Steel Locking Bar
True Deadbolt Locking Mechanism
Special Design Steel Plunger
Solid State Electronic Control

This product covered by one or more U.S. Patents; 3,897,093, 3,860,894.

- Totally automatic deadbolt locker prevents unauthorized entry into unattended vehicles, restricted plant areas, garages, anywhere security and protection are demanded.
- Most advanced system available for all-around protection and for controlling the movement of people in restricted areas.

The single most important feature of the RCV deadbolt security system is that it locks up any entrance point automatically after person exits. It does not depend upon the individual. A solid ½″ stainless steel bar, in lock position, resists any attempt to jimmy or pry a door open.



rcv
residential commercial vehicle
PROTECTION

A single keyed entry switch or button disengages the deadbolts permitting re-entry into vehicle or individuals to enter deadbolt protected doors.

It's a simple way to assure protection against the theft of vehicles or valuables on the premises and control the movement of individuals. With delivery and service vehicles being victimized and firms being burglarized with ever increasing frequency, it makes sense to install the Wico RCV Self-Locking Deadbolt System today.

AUTOMATICALLY DEADBOLTS ANY DOOR

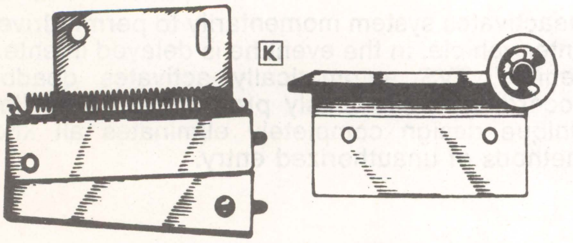
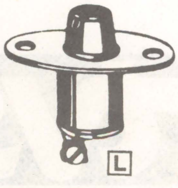
J



K



L

Selected accessories can be added to TVS and RCV Security System installations to perform additional specific functions.

A (No. 72-4438) AUXILIARY POWER SYSTEM

Reserve power source and circuitry to activate siren alarm should the regular vehicle battery cables be cut in an attempted break-in. Also provides a power source for operation of entire TVS system including all deadbolt lockers by authorized personnel following this type of break-in attempt.

Utilizes the latest in battery technology (new "solid gel" type battery), auxiliary power system requires no maintenance (water) and is under a constant "trickle-charge" during vehicle operation.

B (No. 21-7123) SECURITY CHECK TONE ALERT

Used in place of horn to notify driver that vehicle's security system is functioning or not functioning properly. Tone Alert produces an effective but non-irritating signal.

C (No. 72-4235) STAINLESS STEEL COVER FOR ELECTRONIC SIREN

Protective cover for No. 21-7122 siren. Encloses entire siren with one end mesh screen covered.

D (No. 23-1271) TAMPER SWITCH FOR SIREN COVER

Used with Siren Cover, No. 72-4235. Triggers siren if attempt is made to remove cover, deactivate siren.

E (No. 72-4225) BRAKE LOCKING DEVICE— 2 WHEELS

Protects against attempted "tow-aways". Recommended for front wheel installation.

F (No. 72-4226) BRAKE LOCKING DEVICE— 4 WHEELS

Provides maximum "tow-away" protection.

G (No. 21-7122) ELECTRONIC SIREN

Deluxe solid state 12 V model. Police type siren, with solid state circuits, providing both open and closed circuits.

H (No. 21-6962) DELUXE MECHANICAL SIREN ALARM

Complete kit, 12 V with heavy duty relay, trumpet siren. All required fittings included.

I (No. 21-6961) STANDARD MECHANICAL SIREN ALARM

Complete kit, 12 V, with all required fittings.

J (No. 21-6965) ADJUST-A-LOCK SECURITY BAR

Locks steering wheel and brake pedal (in "on" position) to prevent movement of vehicle. Bar adjustment to fit each vehicle. Includes built-in lock on shaft of bar.

K (No. 72-4204) DOOR ALARM SWITCH ASSEMBLY For Trucks or Vans with Sliding Doors

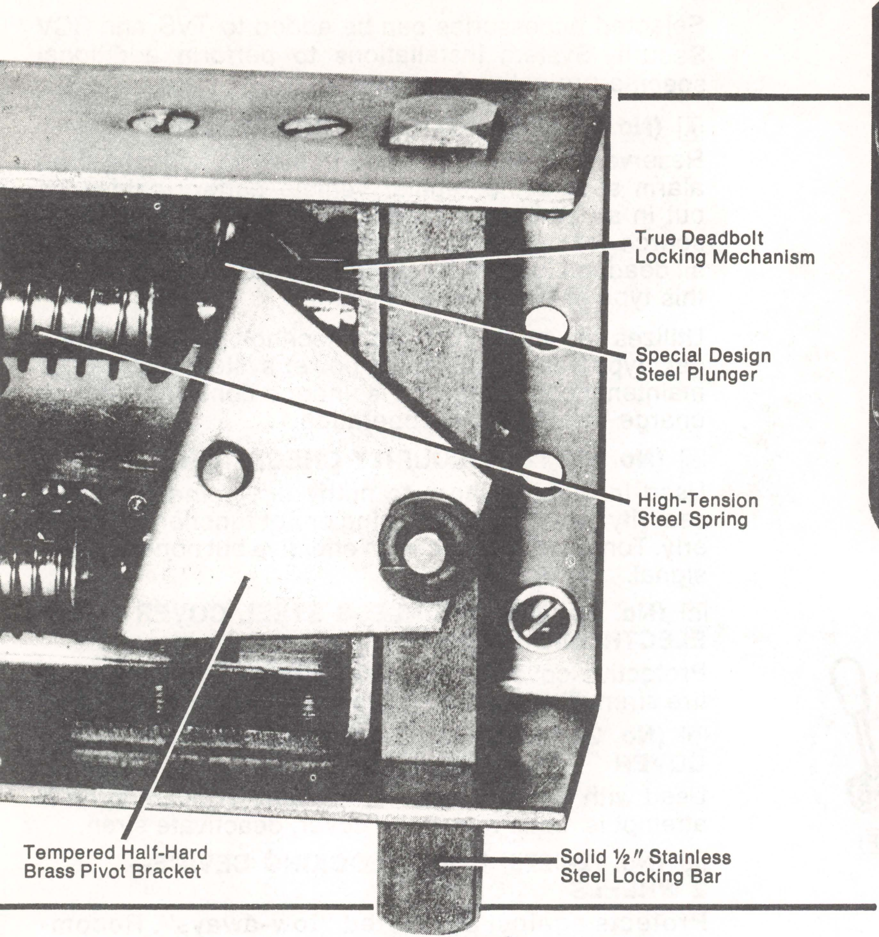
Wico's new Door Alarm Switch eliminates broken switches and continuous adjustment on misalignment, etc.

New design features a "Rocker Type principle" and Nylon Roller Actuator.

Basic switch never comes in contact with vehicle door and thus there is no unusual stress or strain on switch.

No amount of door slamming will affect or cause damage to switch assembly.

L (No. 21-7039) DELUXE DOOR SWITCH



True Deadbolt Locking Mechanism
Special Design Steel Plunger
High-Tension Steel Spring
Tempered Half-Hard Brass Pivot Bracket
Solid ½″ Stainless Steel Locking Bar

DRIVER I.D. CONTROL

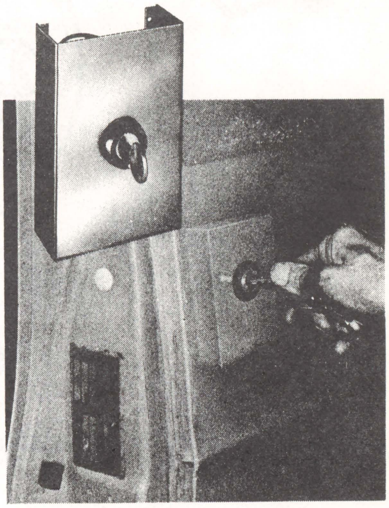
(No. 72-4437)

Designed for driver and vehicle protection. Complete solid state circuitry allows vehicle's initial operation for a preset time period. If proper code is not given, Driver I.D. System will deadbolt entrance points, activate alarm system, and cut ignition. System's operation is compatible with other alarm systems and by itself as an ignition cutoff.

EXIT SWITCH (No. 23-1032)

A convenience switch for the driver should he be delayed in leaving the vehicle for any reason and be locked inside.

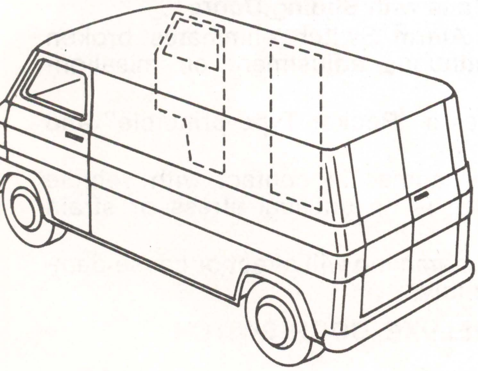
For additional accessories, see Page 4



ENTRY CONTROL

(No. 72-4434)

Deactivates system momentarily to permit driver to enter vehicle. In the event he is delayed in entering vehicle, TVS automatically activates deadbolts according to previously programmed time limits. Unique design completely eliminates all known methods of unauthorized entry.



a system upon which you can rely
for the safety and security of your
vehicles and their contents.

Decal identifying vehicle
as TVS protected

tvs

Your best defense against vehicle or cargo theft is to *prevent entry!*

Headlines proclaim all too frequently the mounting losses suffered by operators of vending and delivery vehicles. During driver absence, often only a matter of minutes, vehicles are broken into and valuable contents stolen and in many cases, the vehicle stolen as well. *Preventing entry* is the primary need to maximize protection for vehicle operators. Wico Corporation's TVS Security System fulfills that need and more.

TVS is an *electro/mechanical/electronic security system* that will automatically

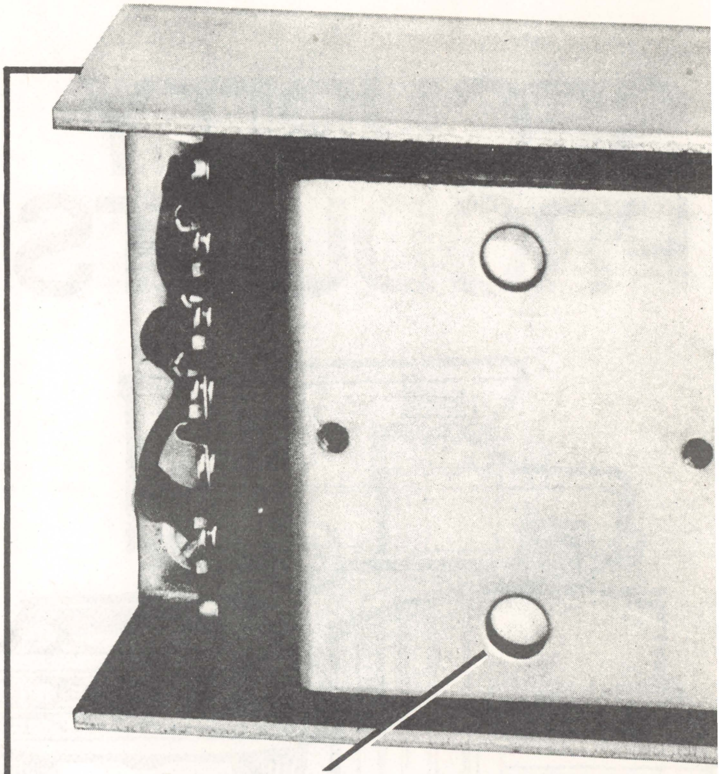
- Deadbolt all doors
- Alert driver to operating status of the system
- Cut-off ignition
- Activate alarm system

to provide a positive defense against unauthorized entry and operation of vehicle.

Consider these unique advantages

- Lockup responsibility is removed from the driver. Once he leaves the vehicle and closes the door, TVS deadbolts all entry points automatically. TVS is programmed to perform this function in seconds.
- TVS utilizes a true deadbolt mechanism to make it virtually impossible to jimmy or pry open doors.
- TVS is programmed to cut off ignition and activate an alarm system, again automatically, without relying on the driver.
- TVS is a fully flexible system that can be installed on any vehicle regardless of make, model or year.
- TVS also provides a defense against moving the vehicle by its own power with its highly advanced drive I.D. component. Unless the driver properly identifies himself to the system, the vehicle is immobilized.
- TVS has the flexibility that permits adding other security equipment as it may be required.

Wico's TVS system takes the gamble out of vehicle security by creating positive defenses against the would-be thief. The system is offered with a selection of optional equipment for special security requirements.



Exclusive Wico Design
Heavy-Duty Coils with
Protective Cover Plate

(Shown Actual Size)

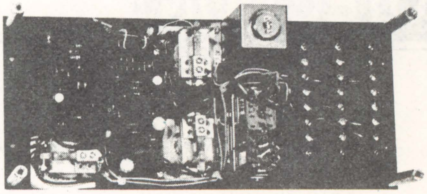
This product covered by one or more U.S. Patents; 3,897,093, 3,860,894.

The heart of the tvs security system

TVS deadbolt lockers incorporate a true locking deadbolt mechanism*. Locking bar is solid ½″ square stainless steel that seats itself into the vehicle's structure. A specially designed chrome plated steel plunger locks the deadbolt in place to insure positive protection. When activated, Wico's deadbolt lockers virtually eliminate the potential for forcible entry. It provides "physical" security, similar to the locking mechanisms found in today's most advanced safes.

ELECTRONIC MASTER CONTROL

(No. 72-4429)



A highly advanced and sophisticated solid state electronic control masterminds the entire security function. Controlled by management, it can be programmed to:

1. Automatically deadbolt all doors
2. Automatically notify driver of activation
3. Automatically activate alarm system
4. Automatically cut off ignition
5. Automatically monitor condition of system
6. Automatically monitors all entry points in open condition
7. Removes all responsibility from driver—assures management of proper and continuous use
8. Field and laboratory tested for operational reliability, even under severe weather conditions.
